Explorations in Applied Ethnolinguistics Lauren Sadow, Kerry Mullan, Cliff Goddard, 2026-01-02 This volume contributes to the growing body of cutting edge research into the Natural Semantic Metalanguage NSM approach in linguistics. It explores the broad range of possible applications enabled by the NSM approach from linguistic studies of semantics and culture to cross cultural studies psychology and childhood education. The volume builds on previous studies bringing a diversity of voices to this area and covering sixteen languages. The volume celebrates the life and work of the late Bert Peeters proponent and pioneer of the NSM approach in French. It comprises contributions from Peeters close associates as well as former and current students to engage with salient aspects of his work and honour his influence on the field including conceptualisation of the term applied ethnolinguistics. The book is divided into four sections which reflect this diversity of applications and Peeters work in the field applications outside of linguistics semantics inside and outside Europe and cultural scripts. This book will be of interest to a wide audience of scholars and students in applied linguistics and related fields with a particular interest for scholars in semantics pragmatics cross cultural communication language education Minimal English and NSM Chapter 15 is available open access under a Creative Commons Attribution 4.0 International License via link springer.com

Newsweek, 1995 **Perversion and Modern Japan** Nina Cornyetz, J. Keith Vincent, 2010-01-21 How did nerves and neuroses take the place of ghosts and spirits in Meiji Japan? How does Natsume Soseki's canonical novel *Kokoro* pervert the Freudian teleology of sexual development? What do we make of Jacques Lacan's infamous claim that because of the nature of their language the Japanese people were unanalyzable? And how are we to understand the reawakening of collective memory occasioned by the sudden appearance of a Japanese Imperial soldier stumbling out of the jungle in Guam in 1972? In addressing these and other questions the essays collected here theorize the relation of unconscious fantasy and perversion to discourses of nation identity and history in Japan. Against a tradition that claims that Freud's method as a Western discourse makes a bad fit with Japan this volume argues that psychoanalytic reading offers valuable insights into the ways in which Japan itself continues to function as a psychic object. By reading a variety of cultural productions as symptomatic elaborations of unconscious and symbolic processes rather than as indexes to cultural truths the authors combat the truisms of modernization theory and the seductive pull of culturalism. This volume also offers a much needed psychoanalytic alternative to the area studies convention that reads narratives of all sorts as windows offering insights into a fetishized Japanese culture. As such it will be of huge interest to students and scholars of Japanese literature history culture and psychoanalysis more generally **Dignidade!** Mario Vargas Llosa, Eliane Brum, Paolo Giordano, Catherine Dunne, Alicia Giménez Bartlett, James A.
