Becoming a YouTube Musician Christopher Cayari, 2025-07-28 As the most visited social media site on the internet the video sharing platform YouTube has become a highly influential space for musicmaking and learning. Becoming a YouTube Musician How People Learn Create and Connect Online explores how YouTube creators and viewers are using digital video to create and consume music, develop online communities and engage in formal, informal and experimental music learning. Drawing on 26 case studies, the author challenges music educators to incorporate the learning, creative and social practices of online musicians into their classrooms by helping students learn to participate in an online music system like YouTube. While this book serves as an in-depth analysis of a specific platform, the concepts within are more universal. Becoming a YouTube Musician encourages readers to consider how technology, media and the internet can be used to innovate teaching by incorporating popular practices that exist on social media. The author shows educators how to apply lessons from the practices of YouTube musicians in their classrooms, facilitating student creativity and engagement in new ways.

**Whittling for Kids and Parents** Stephen Fleming, 2020-11-07 Are you a parent looking for ways to engage with your kids bond with them and have fun? Are you looking for ways to help turn off the smart phones, tablets and television and still have your kids and teens occupied with a fun activity? In an ever changing society, there aren't a whole lot of activities that are geared towards children, teens and parents. Marketing strategies have become so specific that they target the exact age ranges. Fortunately, if you take a step back from modern society, you can get involved in some age old crafts and practical skills that are fun for the whole family. Wood carving and whittling are two such crafts. Not only are there projects that range in difficulty for different skill and age groups, but there are some projects that can be completed by two people, giving you a chance to interact and bond with your children face to face. Without the input of noise and visual stimulation from screen entertainment, you and your children can talk to each other and create something together. Wood carving and whittling are detail oriented crafts, so it is best to unplug completely, removing distractions like phones and screened devices while participating. It is a good excuse for you and your children to step back and develop a different set of skills. By utilizing this book, you'll learn why wood carving and whittling are important skills. You will be taught basic techniques and be introduced to the proper tools and materials for these crafts. Additionally, you'll have several beginner projects with step by step instructions to get started on with your children. This is a great place to start you and your children's digital detox and bonding activities. I've included photographs of realistic beginner projects and I'll explain the processes and standard operating procedures associated with them. Below are the topics you would find inside: Introduction to Whittling Tools, Process and Techniques, 1 Project, Step By Step Beginner Projects, 30 Projects, Conclusion and Free Online Resources. In the last chapter, I've provided a link to free online resources for planning your next projects. Cheers and let's start the exciting journey!

Leadership in Game of Thrones Brigitte Biehl, 2021-10-13 Winning power in Westeros is hard but holding power

is much harder. The book analyzes strategies of leadership in the popular television series as an inspiration for today's uncertain times and our corporate world bringing together research on TV series with management studies. The medieval fantasy world presents emotional and larger than life leadership archetypes: charismatic, authentic, privileged, masculine, female, motherly, lonely, romantic, and disabled leaders. They are constructed and deconstructed. Hands, penises, and heads are chopped off. In this way, the series also celebrates the power of those who follow or resist and always influence their leaders. Dr. Brigitte Biehl. Biehl Missal is Professor for Media and Communication Management at the SRH Berlin University of Applied Sciences School of Popular Arts in Berlin, acting as Head of Studies B.A. Creative Industries Management, M.A. International Management Focus on Creative Leadership and director of the Institute for Professional Development IWK. Her background is in theater, film, and media studies, and business studies. She has published widely on art aesthetics and management. This book is a translation of the original German 1st edition *Leadership in Game of Throne* by Brigitte Biehl, published by Springer Fachmedien Wiesbaden GmbH, part of Springer Nature in 2020. The translation was done with the help of artificial intelligence machine translation by the service DeepL.com. A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.
