After the Fact Nathan Bomey, 2018

This trenchant analysis examines the many ways our society's increasingly tenuous commitment to facts laid the groundwork for Donald Trump's rise to power. Award-winning journalist Nathan Bomey argues that Trump did not usher the post-truth era into being. He was its inevitable outcome. Bomey points to recent trends that have created the perfect seedbed for spin, distortion, deception and bald-faced lies: shifting news habits, the rise of social media, the spread of entrenched ideologies and the failure of schools to teach basic critical thinking skills. The evidence supporting the author's argument is all around us. On Facebook we present images of our lives that ignore the truth and intentionally deceive our friends and family. We consume fake news stories online and carelessly circulate false rumors. In politics we vote for leaders who leverage political narratives that favor ideology over science. And in our schools we fail to teach students how to authenticate information. *After the Fact* explores how the convergence of technology, politics and media has ushered in the misinformation age, sidelining the truth and threatening our core principle of community.
