The Encyclopedia of Taxation & Tax Policy Joseph J. Cordes, Robert D. Ebel, Jane Gravelle, 2005 From adjusted gross income to zoning and property taxes the second edition of The Encyclopedia of Taxation and Tax Policy offers the best and most complete guide to taxes and tax related issues. More than 150 tax practitioners and administrators, policymakers and academics have contributed. The result is a unique and authoritative reference that examines virtually all tax instruments used by governments individual income, corporate income, sales and value added, property, estate and gift, franchise, poll and many variants of these taxes as well as characteristics of a good tax system, budgetary issues and many current federal, state, local and international tax policy issues. The new edition has been completely revised with 40 new topics and 200 articles reflecting six years of legislative changes. Each essay provides the generalist with a quick and reliable introduction to many topics but also gives tax specialists the benefit of other experts' best thinking in a manner that makes the complex understandable. Reference lists point the reader to additional sources of information for each topic. The first edition of The Encyclopedia of Taxation and Tax Policy was selected as an Outstanding Academic Book of the Year 1999 by Choice magazine. Wolfson, 1992 The 1986 Tax Act in the U.S. gradually reduced corporate tax rates from 46

percent prior to the Act to 34 percent by the middle of 1988 This reduction gave firms an incentive in 1986 and 1987 to shift taxable income to future years when tax rates would be lower There are substantial impediments however to shifting taxable income across periods notably offsetting tax consequences to other contracting parties and a host of nontax costs and it becomes an empirical question as to whether the benefits of shifting taxable income are sufficient to overcome the impediments This paper examines whether firms deferred income recognition and or accelerated expense recognition in anticipation of these declining tax rates We find statistically significant evidence that firms shifted gross margin from the quarter immediately preceding and anticipated decrease in tax rates to the next quarter We estimate that on average the 812 firms in our sample saved approximately five hundred thousand dollars in taxes by deferring sales At a gross margin rate of one third this amounts to nearly twenty billion dollars of shifted sales for our sample firms **Public Affairs Information Service Bulletin ,1928 Daily Information Service National Coal Association,1918**
