Appraisals Pocketbook Frank Scott-Lennon,2004-01-01 The Appraisals Pocketbook adopts a strongly practical approach in explaining how to set up and run an appraisal system. Using a helpful 5 stage model, the book shows how to identify the job objective and key result areas, how to set clear achievable goals and how to structure and conduct the performance discussion. The 2nd edition of this popular title has been brought up to date by the author and there are new illustrations throughout. Reviewing the Appraisals Pocketbook Management Today concluded: This little book provides a lot of help. It challenges managers to ask themselves whether they understand what an appraisal is for and what questions they should be asking.

The Agricultural Notebook Richard J. Soffe,2011-12-02 The Twentieth Edition takes The Agricultural Notebook into its third century. It has been thoroughly revised and updated to reflect the considerable changes in agricultural and rural practices and policies which have taken place since publication of the previous edition. The book is divided into four parts: Crops Management, Animal Production and Farm Equipment. New sections added to this edition include 1 A Marketing Perspective on Diversification, 2 Organic Farming and 3 Farming and Wildlife. Since the first edition was compiled by Primrose McConnell in 1883, The Agricultural Notebook has become established as the standard work of reference for all those in the farming industry. With each edition it has evolved and changed in such a way as to provide agricultural scientists, students of agriculture and related subjects, farmers, farm managers and land agents with an abundance of current information on all aspects of the business of farming. Many comments received from lecturers and students who have used previous editions of the book have been taken into account in producing the twentieth edition. The thirty contributing authors have fully updated chapters, a new clearer layout has been adopted and much new information is included in easy-to-use tables and figures. The Agricultural Notebook is an essential purchase for all students of agriculture, countryside and rural studies. Professionals such as farmers, land agents, agricultural scientists, advisers, suppliers to the agriculture industry and all those with a connection and interest in the agricultural community will find a huge wealth of information within the book's covers. All libraries within universities, colleges and research establishments where agricultural and rural sciences are studied and taught should have multiple copies of this important new edition on their shelves.
