Denial, Negation, and the Forces of the Negative Wilfried Ver

Eecke,2006-06-01 Finalist for the 2006 Goethe Award for Psychoanalytic Scholarship presented by the Section on

Psychoanalytic and Psychodynamic Psychology of the Canadian Psychological Association It is often the case that painful truths emerge first in the form of denial one needs to create distance from what is painful In Denial Negation and the Forces of the Negative Wilfried Ver Eecke constructs a comprehensive lucid account of denial s psychological and philosophical dimensions while using Freud Hegel Lacan Spitz and Sophocles to help us understand this unavoidable aspect of human

existence Ver Eecke acknowledges Hegel's claim that the road to truth is not a path of doubt but a highway of despair and argues via Hegel's ontology of the person that denial can be understood as a desiring being's defense against despair. By examining the role of no saying in children Freud's claims about freedom of the will and its necessary prerequisites and Sophocles Oedipus Ver Eecke demonstrates the idea that denial is connected with situations in which the self image of a person is threatened. He concludes with a colleague's autobiography to highlight the deep tragic experiences that denial covers and the enormous psychic work required to overcome profound denial with the ultimate reward of experiencing oneself as the fulfillment of the promise of life. **Facets of Buddhist Thought** K.N. Jayatilleke, 2009-01-01 This book presents a brilliant account of Theravada Buddhism and embraces a wide variety of themes ranging from the birth of Buddhism to the Buddha's prophetic teachings regarding the future of mankind. As a result this is a highly readable and extremely penetrating book and one that explores the roots and nature of the Buddha's teachings and examines them in the light of contemporary knowledge.
