## **The Medieval Super Companies A Study Of The Peruzzi Company Of Florence:**

*The Medieval Super-companies* Edwin S. Hunt, 1994 This 1994 book presents a detailed description and history of one of the most famous companies of the early fourteenth century. This analysis of the Peruzzi Company produces a radical reassessment of what made the Florentine super companies so exceptional commodity trading especially in grain which required heavy capital sophisticated organisation and an international network. But the book also exposes the limitations of their financial power and explodes the myth that the collapse of the Peruzzi and its joint venture partner the Bardi was caused by bad loans to Edward III made to finance his invasions of France

**Political Economies of Empire in the Early Modern Mediterranean** Maria Fusaro, 2015-05-05 Early modern European economic development seen through the interaction of two major players in the Mediterranean economy Venice and England

*Financial Vipers of Venice* Joseph P. Farrell, 2013-09-16 In this sequel to *Babylon's Banksters* The banksters have moved from Mesopotamia via Rome to Venice. There they have manipulated popes and bullion prices clipped coins sacked Constantinople destroyed rival Florence waged war burned heretics and suppressed hidden secrets threatening their financial supremacy until Giordano Bruno and Christopher Columbus broke the banking cartel's control of information and bullion

[The Central Middle Ages](#) Daniel Power, 2006 Daniel Power traces the history of Europe in the central Middle Ages 950-1320 an age of far reaching change for the continent. Seven contributors consider the history of this period from a variety of perspectives including political social economic religious and intellectual history

**Italian Quarterly**, 1999 [The Prior of the Knights Hospitaller in Late Medieval England](#) Simon Phillips, 2009 The full significance and influence of the part played by the Prior of the Knights Hospitaller in the middle ages is brought out here in a wide ranging survey. The Prior of the Knights Hospitaller played a major role not only within the Order but also in the wider arena of English and indeed European politics. This role and its changes between 1272 and 1540 are the focus of this new book which draws extensively on archival material both in the United Kingdom and in the Hospitaller archives at Malta. It argues that the Prior's allegiance to the crown was as important as his allegiance to his order that the relationship between crown and priory was generally cordial and that usually there was no contradiction between service to crown and convent. It demonstrates a general expansion in the public roles of the Hospitaller Prior not just under the most politically important Priors. It analyses the Priors interactions with financially important merchants and the terms that three Priors served as treasurers of England. Finally by revealing how the order lost political control of its estates it contributes to the broader themes of secularisation and emerging nationalism. Dr SIMON PHILLIPS is a Research Associate of the University of Cyprus and Fellow of the Royal Historical Society

**The Numismatic Chronicle**, 2006 List of members in each volume beginning with new ser v 1 except new ser v 3 [Studies in Byzantine, Islamic and Near Eastern Silk Weaving](#) Anna Muthesius, 2008 This volume complements Anna Muthesius' two earlier groundbreaking volumes in the field of silk as material culture. [Studies in Byzantine and Islamic Silk Weaving](#) and

Studies in Silk in Byzantium The publication highlights the fact that similar patterns of selection were at work in the acquisition of silks by secular and ecclesiastical bodies These patterns of selection were governed not only by fashions of the time but by access to international trade routes leading to the Great Silk Road linking the Near East to the Mediterranean The surviving silks prove that Mediterranean Near Eastern silk trade flourished continuously and for centuries prior to the thirteenth century contrary to what has previously widely been assumed It also highlights the crucial role of the Caucasian silk routes in accessing the Great Silk Road in the early period and the contribution of Georgian and Armenian silk weaving after the thirteenth century Above all the book demonstrates how important it is to assess the impact of Near Eastern silk manufacture and distribution in relation to Byzantine and Islamic Mediterranean silk production and trade *The Journal of European Economic History*, 2004 *Proceedings of the ... Annual Meeting of the Western Society for French History*

Western Society for French History. Meeting, 2000 *Studies on the Hospitallers After 1306* Anthony Luttrell, 2007 This is the fifth collection of studies on the Hospitallers of Rhodes by Anthony Luttrell to appear in the Variorum Collected Studies Series The studies emphasize the 14th century the central Convent facing the Turks and the interactions and interdependence of the Order's European priories and commanderies Together they constitute another important body of work on the history of the Hospitallers touching on their nature as a military religious order and the historiography iconography religiosity and finances of the order **Tradition and Ecstasy**, 1997 *The Western Mediterranean*

**Usury and Public Debt in Early Renaissance Florence** Lawrin David Armstrong, 2003 **The City, the Duke and Their Banker** Bart Lambert, 2006 During the second half of the fourteenth and the first half of the fifteenth century it was particularly hazardous for medieval merchants to invest in government finance The certainty of uncertainty involved in dealing with princes proved disastrous for innumerable businesses whether they were modest one man firms or colossal super companies Yet in this same period the Rapondi a family active in Bruges but originating from the Italian city of Lucca achieved a career of more than thirty years in the money lending business ending with encomiums of princely praise instead

of a bankruptcy This book explains this remarkable achievement not with a conventional focus on the individuals who agreed the loans and made up the bills but by linking their work to the phenomenon that dominated the social and political scene of the Low Countries at the time the formation of the Burgundian state In the context of the politics of centralization conducted by the Burgundian dukes and the resistance of the Flemish cities the success story of the Rapondi can be understood The Duke the City and their Banker analyses how the firm first engaged in this interaction how it was able to maintain its position while others failed and how these relations came to an end While the emphasis of the book lies on the Rapondis activities in Bruges the meeting place of international trade and finance in the fourteenth and fifteenth century it also offers new insights into other important episodes of this fascinating period including the Great Western Schism that divided the papacy the continuing hostilities between England and France and the internal French conflict between Bourguignons and Armagnacs In doing so The Duke the City and their Banker shows how an Italian merchant family was able to shape late medieval economic and political history The master s thesis on which this book is based was awarded with the Dexia Prize for History 2005
