The Moche Of Ancient Peru Media And Messages Peabody Museum Collections Series:

The Moche of Ancient Peru Jeffrey Quilter, 2010 Quilter utilizes the Peabody's collection as a means to investigate how the Moche used various media particularly ceramics to convey messages about their lives and beliefs. His presentation provides a critical examination and rethinking of many of the commonly held interpretations of Moche artifacts and their imagery. It also raises important questions about art production and its role in this and other ancient and modern cultures.

Townsend, 2016-06-28 A stunning survey of the indigenous art architecture and spiritual beliefs of the Americas from the Precolumbian era to the 20th century. This landmark publication catalogues the Art Institute of Chicago's outstanding collection of Indian art of the Americas one of the foremost of its kind in the United States. Showcasing a host of previously unpublished objects dating from the Precolumbian era to the 20th century the book marks the first time these holdings have been comprehensively documented. Richard Townsend and Elizabeth Pope weave an overarching narrative that ranges from the Midwestern United States to the Yucatán Peninsula to the heart of South America. While exploring artists' myriad economic historical linguistic and social backgrounds the authors demonstrate that they shared both a deep underlying cosmological view and the desire to secure their communities' prosperity by affirming connections to the sacred forces of the natural world. The critical essays focus on topics that bridge traditions across North Central and South America including materials methods of manufacture the diversity of stylistic features and the iconography and functions of various objects. Gorgeously illustrated in color with more than 500 vibrant images this handsome catalogue serves as the definitive survey of an unparalleled collection **Playing with Things** Mary

Weismantel, 2021-08-17 Winner Association for Latin American Art Arvey Foundation Book Award 2022 More than a thousand years ago on the north coast of Peru Indigenous Moche artists created a large and significant corpus of sexually explicit ceramic works of art. They depicted a diversity of sex organs and sex acts and an array of solitary and interconnected human and nonhuman bodies. To the modern eye these Moche sex pots as Mary Weismantel calls them are lively and provocative but also enigmatic creations whose import to their original owners seems impossible to grasp. In *Playing with Things* Weismantel shows that there is much to be learned from these ancient artifacts not merely as inert objects from a long dead past but as vibrant Indigenous things alive in their own inhuman temporality. From a new materialist perspective she fills the gaps left by other analyses of the sex pots in pre Columbian studies where sexuality remains marginalized and in sexuality studies where non Western art is largely absent. Taking a decolonial approach toward an archaeology of sexuality and breaking with long dominant iconographic traditions this book explores how the pots play jokes make babies give power

and hold water considering the sex pots as actual ceramic bodies that interact with fleshly bodies now and in the ancient past A beautifully written study that will be welcomed by students as well as specialists Playing with Things is a model for archaeological and art historical engagement with the liberating power of queer theory and Indigenous studies **Res:**
