*The First Urban Christians* Wayne A. Meeks, 2003-01-01 Meeks analyzes the letters of Paul to see what kind of people joined the Christian groups in the urban centers and what it was like to be a Christian then **Christian Origins and the Ancient Economy** David A. Fiensy, 2014-07-22 What does economics have to do with Christian origins Why study such a connection First of all the New Testament makes many direct references to economic issues But second the economy affects every other aspect of life family religion community work health and politics To understand what it was like to live in a society one must understand what the economy was doing The study of the economy includes not only the goods and services of a society but also human labor and its control For one it entails the size of the pie of goods How prosperous was first century Galilee But the study of economy also takes account of the slice of the pie that each family obtained How fair was the economy to each family Those involved in the quest for the historical Jesus have discovered that the ancient economy is a major point of dispute among various interpreters Was the early Jesus movement a socioeconomic protest Or was it primarily a religious reform These two approaches understand Jesus in remarkably different ways This volume seeks to guide readers through some of the most controversial issues raised in the last twenty years on this important topic *The Urban World and the First Christians* Steve Walton, Paul Trebilco, David W. J. Gill, 2017-09-18 In the tradition of *The First Urban Christians* by Wayne Meeks this book explores the relationship between the earliest Christians and the city environment Experts in classics early Christianity and human geography analyze the growth development and self understanding of the early Christian movement in urban settings The book's contributors first look at how the urban physical cultural and social environments of the ancient Mediterranean basin affected the ways in which early Christianity progressed They then turn to how the earliest Christians thought and theologized in their engagement with cities With a rich variety of expertise and scholarship *The Urban World and the First Christians* is an important contribution to the understanding of early Christianity

*After the First Urban Christians* Todd D. Still, David G. Horrell, 2009-11-13 After the *First Urban Christians* introduces the groundbreaking volume *The First Urban Christians* to a new generation of students scholars and even general readers

**The Urban Pulpit** Matthew Burton Bowman, 2014 Matthew Bowman explores the world of a neglected group of American Christians self identified liberal evangelicals who sought to reconcile traditional evangelical spirituality with progressive views on social activism and theological questions *The Manual* Sherryle Kiser Jackson, 2009 From a fresh voice in Christian fiction comes a compelling tale of a couple struggling to reunite for the sake of their son **Urban Ethics as Research Agenda** Raúl Acosta, Eveline Dürr, Moritz Ege, Ursula Prutsch, Clemens van Loyen, Gordon M. Winder, 2023-07-13 This book provides an outline for a multidisciplinary research agenda into urban ethics and offers insights into the various ways urban ethics can be configured It explores practices and discourses through which individuals collectives and institutions determine which developments and projects may be favourable for dwellers and visitors

traversing cities Urban Ethics as Research Agenda widens the lens to include other actors apart from powerful individuals or institutions paying special attention to activists or civil society organizations that express concerns about collective life The chapters provide fresh perspectives addressing the various scales that converge in the urban The uniqueness of each city is thus enriched with global patterns of the urban Local sociocultural characteristics coexist with global flows of ideas goods and people The focus on urban ethics sheds light on emerging spaces of human development and the ways in which ethical narratives are used to mobilize and contest them in terms of the good life This timely book analyses urban ethical negotiations from social and cultural studies particularly drawing on anthropology geography and history This volume will be of interest to scholars researchers and practitioners interested in ethics and urban studies Licence line The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license *An Exemplification of the accounts of urban and rural sanitary authorities* George GIBSON (Auditor),1876 **Polish National Catholic Church** Bernard Wielewinski,1989-12-31 *Report Commonwealth Shipping Committee*,1911 *Simulation and Gaming Yearbook* ,1996 **Housing and Urban Affairs Daily** ,1976
