Roman de toute chevalerie Charles Russell Stone, 2019-03-07 The medieval reception of Alexander the Great inspired a complicated literary corpus not simply because it involved so many source texts and languages but because it incorporated such diverse perspectives on the conqueror Beginning with a discussion of the evolution of this corpus this book examines the manuscripts readership and historical contexts of the earliest surviving Alexander romance in England Thomas de Kent's Anglo Norman Roman de toute chevalerie To shed light on the origins and treatment of this romance Charles Russell Stone reads each manuscript within the contexts of its production scribal interpolations and patronage and readership in the thirteenth and fourteenth centuries While Thomas recalls a range of attitudes towards his protagonist in the late twelfth century when the recovery of classical histories and composition of vernacular romance informed conflicting attitudes towards Alexander's legacy scribes and readers of his poem appropriated it as a continuing commentary on power politics and the relevance of the Alexander legend in their own time Each of the three major manuscripts of Thomas's poem thus offers a unique text informed by unique literary and political contexts which this book situates within the ongoing debate over Alexander's reception as a paradigm of imperial authority or failure in late medieval England *Illustrated Medieval Alexander-books in Germany and the Netherlands* David John Athole Ross, 1971 Illustrated Medieval Alexander-books in French Verse David John Athole Ross, 2019 The core of this book on the French verse Alexander in France and Italy was written by eminent Alexander specialist David J A Ross who left an incomplete typescript at his death In its emphasis on illustration this book offers new perspectives on the reception of one of the most popular medieval heroes Ross's analysis of

the illustrations proves that despite some convergent patterns there is no iconographic programme that coordinates the three major verse traditions as there is for the versions in prose Nevertheless the verse versions continued to be copied and illustrated long after the emergence of prose The editors have expanded Ross s text as he wished to include a comparative analysis of the iconography and they have situated each manuscript as far as possible in its cultural context demonstrating that the producers of the verse Alexander were also responsible for writing and illustrating a large number of other vernacular and liturgical books in Northern France Paris the South and Italy This volume is a sequel to Ross s *Studies in the Alexander Romance* and his *Illustrated medieval Alexander books in Germany and the Netherlands* and makes available an extensive corpus of high quality images of this great hero *Dante and the Medieval Alexander* Ambrogio Camozzi, 2013

Illustrated Medieval Alexander-books in Germany and the Netherlands David J. A. Ross, 1971 **“The” Medieval Alexander Legend and Romance Epic** Peter S. Noble, 1982 The *Alexandreis* Walter Chatillon, 2006-10-16 Walter of Chatillon s Latin epic on the life of Alexander the Great was a twelfth and thirteenth century best seller scribes produced over two hundred manuscripts The poem follows Alexander from his first successes in Asia Minor through his conquest of Persia and India to his progressive moral degeneration and his poisoning by a disaffected lieutenant The *Alexandreis* exemplifies twelfth century discourses of world domination and the exoticism of the East But at the same time it calls such dreams of mastery into question repeatedly undercutting as it does Alexander s claims to heroism and virtue and by extension similar claims by the great men of Walter s own generation This extraordinarily layered and subtle poem stands as a high water mark of the medieval tradition of Latin narrative literature Along with David Townsend s revised translation this edition provides a rich selection of historical documents including other writings by Walter of Chatillon excerpts from other medieval Latin epics and contemporary accounts of the foreign and exotic
