Metagnosis Danielle Spencer,2020-10-08 This book identifies and names the phenomenon of metagnosis the experience of newly learning in adulthood of a longstanding condition It can occur when the condition has remained undetected e g colorblindness and or when the diagnostic categories themselves have shifted e g ADHD More broadly it can occur with unexpected revelations bearing upon selfhood such as surprising genetic test results This phenomenon has received relatively scant attention yet learning of an unknown condition is frequently a significant and bewildering revelation subverting narrative expectations and customary categories

Animal Narratology Joela Jacobs,2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another's perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling

Lalo Alcaraz Héctor D. Fernández L'Hoeste,2017-02-27 Amid the controversy surrounding immigration and border control the work of California cartoonist Lalo Alcaraz b 1964 has delivered a resolute Latino viewpoint Of Mexican descent Alcaraz fights for Latino rights through his creativity drawing political commentary as well as underlining how Latinos confront discrimination on a daily basis Through

an analysis of Alcaraz's early editorial cartooning and his strips for *La Cucaracha* the first nationally syndicated political Latino daily comic strip author Hector D. Fernandez L. Hoeste shows the many ways Alcaraz's art attests to the community's struggles Alcaraz has proven controversial with his satirical sharp commentary on immigration and other Latino issues What makes Alcaraz's work so potent Fernandez L. Hoeste marks the artist's insistence on never letting go of what he views as injustice against Latinos the fastest growing ethnic group in the United States Indeed his comics predict a key moment in the future of the United States that time when a racial plurality will steer the country rather than a white majority and its monocultural norms Fernandez L. Hoeste's study provides an accessible comprehensive view into the work of a cartoonist who deserves greater recognition not just because Alcaraz represents the injustice and inequity prevalent in our society but because as both a US citizen and a member of the Latino community his ability to stand in between and outside two cultures affords him the clarity and experience necessary to be a powerful voice
