The Muslim Brotherhood In The Obama Administration:

The Muslim Brotherhood in the Obama Administration Frank Gaffney,2012 Organizational Structure of the Muslim Brotherhood Characteristics, objectives, and future Trends Research & Advisory,2020-01-01 The organizational structure of the Muslim Brotherhood with its institutional and administrative structures is of exceptional importance to the leaders of the Group On the one hand it represents the main tool for translating the Group's principles and ideas into practice on the ground whilst on the other it serves to implement its political project to assume power and achieve empowerment within society Ever since its inception the Group has been intent on linking its organizational structure to its ideological character on the basis that maintaining the cohesion and continuity of its structure would require a belief in the Group's ideology and the values it champions It has also been keen to secure a pivotal role for the Supreme Guide Murshid in the construction of its organization and movement though the nature of that role has differed from one Supreme Guide to another subject to his charisma leadership qualities and ability to influence Group members The Group has relied on organizational units such as offices committees and departments to boost its penetration of society and accorded special priority to social causes which in turn has furnished it with a social backing to be employed in support of its political agenda as was the case with the 2012 legislative and presidential elections in Egypt Although the Muslim Brotherhood exploited the 25 January uprising in 2011 to assume power it failed in the test of governance and it became evident that its organizational and administrative structure could not furnish the expertise cadres and leaders required to enable it to exercise power on the ground This ultimately led to the 30 June uprising against it in 2013 and the subsequent developments and repercussions that weakened the Group's organizational and administrative structure which has subsequently stagnated blighted by fragmentation and division

Obama's True Legacy Jamie Glazov,2023-05-15 The Biden administration may go down in history as the most disastrous presidency in American history It did not however spring up out of nothing The Biden era's America Last economically and socially destructive policies virtually all originated in the Obama administration The Biden team of course is made up of numerous Obama holdovers and there is widespread suspicion that the man who is really pulling the strings for Biden is none other than Barack Obama himself Barack Obama's True Legacy details just how bad the Obama years really were for America and Americans and shows how the country is now suffering from a resurgence of these sinister policies after the four year respite of the Trump administration The book is a collection of new original non published essays written by an organized group of prominent conservative intellectuals on how Obama transformed America documenting the suppressed details of how the ex president was and still is a major national security threat to America Barack Obama's True Legacy is a one volume guide to how the Democrat Party went so drastically wrong and why it is such a dangerous and catastrophic force in the White House and the country at large today It all goes back to one man Barack Hussein Obama

Congressional Record United States. Congress,2012 **America & Islam** Lawrence Pintak,2019-06-27 Donald Trump's

first term as the 45th President of the United States of America has shocked the world His attitudes towards Islam became a key point of contention on the campaign trail and in power Trump has continued his war of divisive words and deeds Here acclaimed journalist Lawrence Pintak scrutinizes America s relationship with Islam since its foundation Casting Donald Trump as a symptom of decades of misunderstanding and demonization of the Islamic world as well as a cause of future tensions Pintak shows how and why America s relationship with the world s largest religion has been so fractious damaging and self defeating Featuring unique interviews with victims and perpetrators of Trump s policies as well as analysis of the media s role in inflaming debate America Islam provides a complete guide to the twin challenges of terrorism and the polarizing rhetoric that fuels it sketching out a future based on co operation and the reassertion of democratic values

The Great Destroyer David Limbaugh,2012-06-04 When it comes to our prosperity our freedom tradition and our constitutional government President Barack Obama has been the great destroyer knocking down the free market economy and principles of limited government that have made America the envy of the world As New York Times bestselling author David Limbaugh documents in chilling detail in his new book The Great Destroyer the Obama administration has waged a relentless nearly four year long war to transform our nation into a country where federal bureaucrats have more power over our lives than we do where leftist crony capitalism dependent on government subsidies is replacing the real thing where in an Orwellian inversion of meaning a savagely weakened national defense somehow makes us stronger and trillions in deficit spending on counterproductive government stimulus and welfare programs somehow makes us richer

The Arab Gulf States and the West Dania Koleilat Khatib,Marwa Maziad,2018-10-30 This book examines the changing image of the Arab Gulf States in the West It addresses the question of perception in international relations and how the Arab States of the Gulf have pursued various endeavors to project themselves into Western imagination The book chapters generate ideas on how perceptions came about and ways to improve cultural and political realities on the ground in the Arab Gulf States Thus it paves the way for a new area of research in the field of Gulf Studies that extends beyond traditional international relations frameworks by weaving elements of intercultural communication into the mix Recognizing yet extending beyond a traditionally realist framework which has dominated the analysis of Arab Gulf States foreign relations with western countries this book tackles both the materialist and the symbolic in the efforts and initiatives launched by the Arab Gulf States Some chapters maintain a social scientific approach about the politics of the Arab Gulf States in the West from an international relations lens Others employ theoretical frameworks that were founded on the notion of the encounter with anthropological lenses and concepts of intercultural communication In addition to the value of this academic research agenda as such some of the chapters also touch upon the added importance of policy oriented input As the Arab Gulf States actively engage with the West the book would widely appeal to students and researchers of Gulf politics and international relations

How Obama Embraces Islam's Sharia Agenda Andrew McCarthy,2010-12-07 While Americans focus on terrorism a more insidious Islamist threat to

our way of life lurks It is the agenda of sharia Islam s authoritarian legal and political system The global Islamist movement aims in the words of the international Muslim Brotherhood to destroy the West by sabotaging it from within Its principal strategy is not mass murder but the exploitation of Western freedoms and the insinuation of sharia principles into Western legal systems Because those principles are hostile to our core liberties indeed hostile even to the bedrock premise that people are free to govern themselves as they see fit sharia s advance gradually undermines our culture The sharia agenda has found a friend in the Obama administration which has embraced its vanguard including the Brotherhood and the Organization of the Islamic Conference President Obama is actively abetting the Islamist platform promoting sharia in his foreign policy easing enforcement of laws that stop Islamic charities from diverting funds to jihadist terror and even sponsoring a United Nations resolution that under the guise of insulating Islam from criticism would stifle First Amendment rights

Our Fractured World Volume II David Diaz,2023-07-08 I am a new European author of a book divided into two volumes that will cost 18 euros each to purchase in a digital PDF format Each volume s title is the same as above and it focuses on global events especially those occurring in the United States of America a nation experiencing enormous unrest and in Europe I had intended to write only one book but I was carried away and had to split it into two I communicate my ideas and the realities of what is actually occurring in the world around us in a way that is politically incorrect as I am not the type of person who likes walking on eggshells unless I deem it necessary Political correctness is something I vehemently oppose in every sense of the word Political correctness should only be used in the context of international relations within the political and corporate worlds To fully express our freedoms political correctness should be removed from all public discourse It is possible to conduct debates without violating decorum through the use of political incorrectness Political correctness gone mad hinders communication by limiting what we may say think write and do The rise of political correctness gone mad has a very Orwellian feel to it I know that political correctness in small doses aims to foster balance in how we communicate with one another but sadly this goal has been perverted and exploited to the point of madness and to shield those who find offence in just about everything I was inspired to publish my own opinions and the truths which left wing politics likes to refer to as conspiracy theories since they concern them and their transgressions by what is occurring around the globe particularly in the United States My two books are not for anyone who is easily offended insulted or micro aggressed Your comments no matter how bizarre or sane they may seem are always welcome without any guarantee that I will agree with them Your feelings regarding the topics I am covering in my books are of very little concern to me If you are a snowflake who is triggered easily by other people s opinions and the truth I suggest that you do not read my works but it is ultimately up to you to make that choice since they are extremely alluring even to people who practise political correctness to the hilt

Lund,Francesco Mancini,2010 Although policymakers and practitioners alike have enthusiastically embraced the idea that security and development are interdependent the precise nature and implications of the dynamic interplay between the two phenomena have been far from clear The authors of Security and Development Searching for Critical Connections realistically assess the promise and shortcomings of integrated security development policies as a strategy for conflict prevention Addressing cross cutting issues and also presenting detailed country case studies they move beyond rhetoric and generalization to make an important contribution to the international conflict prevention agenda **New Left Review** ,2011

Middle East Report ,2008 Gray Work Jamie Smith,2015-04-07 The first ever first person story of America s private paramilitary contractors at work around the world from a man who performed these missions himself and has decades of stories to tell This is a fascinating tale and potentially the first to describe the work of American contractors men who run highly dangerous missions deep inside foreign countries on the brink of war It will lift the veil and detail the ultimate danger and risk of paramilitary operations both officially government sanctioned and not and show us in very intimate terms exactly what private soldiers do when the government can t act or take public responsibility GRAY WORK combines covert military intelligence with boots on the ground realism following Jamie Smith through his CIA training and work as a spy in the State Department to his co founding of Blackwater following 9 11 to his decision to leave that company As the founder and director of Blackwater Security Smith s initial vision has undeniably shaped and transformed a decade of war He argues that this gray area and its warriors who occupy the controversial space between public and private has become an indispensable element of the modern battlefield

Pakistan Iftikhar Haider Malik,2010 As the Fall Out of the us led War on Terror Continues to destabilize the countries of the Indian subcontinent Pakistan and its fate are rarely out of the headlines How did this predominantly Muslim country of 175 million reach this critical state And what does the future hold in the face of such political and social upheaval This clear comprehensive book synthesizes the complex issues facing Pakistan today while remaining cautiously optimistic about the future of a pluralistic naiton caught between civic and military imperatives Professor Malik examines the country s strategic geopolitical position the main characters who have shaped the nation the legacy of Partition and the role of civil society as a force for change and the parts played by Political Islam and jihadi extremism and by the West in its use of Pakistan as a buffer state Book jacket **Balance Sheet** John Duffield,Peter Dombrowski,2009-07-06 Balance Sheet examines both how the Iraq war advanced or impeded the pursuit of other important goals of US national security policy and the war s impact on the ability of the United States to pursue its security interests now and in the future
