Thinking Through Theatre and Performance Maaike Bleeker, Adrian Kear, Joe Kelleher, Heike Roms, 2019-02-07 Thinking Through Theatre and Performance presents a bold and innovative approach to the study of theatre and performance. Instead of topics, genres, histories or theories, the book starts with the questions that theatre and performance are uniquely capable of asking. How does theatre function as a place for seeing and hearing? How do not only bodies and voices but also objects and media perform? How do memories, emotions and ideas continue to do their work when the performance is over? And how can theatre and performance intervene in social, political and environmental structures and frameworks? Written by leading international scholars, each chapter of this volume is built around a key performance example and detailed discussions introduce the methodologies and theories that help us understand how these performances are practices of enquiry into the world. Thinking through Theatre and Performance is essential for those involved in making, enjoying, critiquing and studying theatre and will appeal to anyone who is interested in the questions that theatre and performance ask of themselves and of us.

**The Farmers' Advocate and Home Magazine**, 1913    The Churchman, 1900    **Financing Sovereignty** Damyan Clavel, 2025-08-12 Financing Sovereignty rewrites the story of one of the great financial frauds of the nineteenth century. Gregor MacGregor, a Scottish mercenary and self-proclaimed cacique of Poyais, borrowed massive sums on the City of London's burgeoning South American sovereign debt market by selling bonds of the State of Poyais. The only problem: Poyais did not exist. At least that is what MacGregor was quickly accused of by the press and public opinion at the time. From then on, MacGregor has embodied the figure of the swindler par excellence, the con artist behind the most audacious financial fraud in history. In Damyan Clavel's deeply researched retelling of the Poyais story, MacGregor is less an unscrupulous adventurer aiming to defraud English investors than a luckless intermediary between Indigenous Miskitu elites and British financiers. From the coasts of Moskitia to the trading floors of London, Clavel traces the genesis, development and downfall of the Poyais project, detailing how these events were the outcome of a failed attempt to finance the making of a new country in Central America. A microhistory set against the backdrop of global history, Financing Sovereignty offers a new lens through which to view the political, economic, legal and social dynamics of the nineteenth century revolutionary financial and imperial transformations that took place across the Atlantic.
