The Mongols And The West 1221 141:

The Mongols and the West Peter Jackson, 2014-05-01 The Mongols had a huge impact on medieval Europe and the Islamic world This book provides a comprehensive survey of contacts between the Catholic West and the Mongol world empire from the first appearance of Chinggis Khan's armies in 1221 down to the death of Tamerlane 1405 and the battle of Tannenberg 1410 This book considers the Mongols as allies as well as conquerors the perception of them in the West the papal response to the threat and opportunity they presented the fate of the Frankish principalities in the Holy Land in the path of the Mongol onslaught Western European embassies and missions to the East and the impact of the Mongols on the expanding world view of the maturing Middle Ages For courses in crusading history and medieval European history The Routledge Handbook of the Mongols and Central-Eastern Europe Alexander V. Maiorov, Roman Hautala, 2021-08-25 The Routledge Handbook of the Mongols and Central Eastern Europe offers a comprehensive overview of the Mongols military political socio economic and cultural relations with Central and Eastern European nations between the thirteenth and fifteenth centuries The Mongol Empire was the largest contiguous land empire in history and one which contributed to the establishment of political commercial and cultural contacts between all Eurasian regions The Golden Horde founded in Eastern Europe by Chinggis Khan's grandson Batu in the thirteenth century was the dominant power in the region For two hundred years all of the countries and peoples of Central and Eastern Europe had to reckon with a powerful centralized state with enormous military potential Some chose to submit to the Mongols whilst others defended their independence but none could avoid the influence of this powerful empire In this book twenty five chapters examine this crucial period in Central Eastern European history including trade confrontation and cultural and religious exchange between the Mongols and their neighbours This book will be an essential reference for scholars and students of the Mongols as well those interested in the political social and economic history of medieval Central Eastern Europe Power, Politics, and Tradition in the Mongol Empire and the Īlkhānate of Iran Michael Hope, 2016-09-22 This study provides a new interpretation of how political authority was conceived and transmitted in the Early Mongol Empire 1227 1259 and its successor state in the Middle East the Īlkhānate 1258 1335 Authority within the Mongol Empire was intimately tied to the character of its founder Chinggis Khan whose reign served as an idealized model for the exercise of legitimate authority amongst his political successors Yet Chinggis Khan's legacy was interpreted differently by the various factions within his army In the years after his death two distinct political traditions emerged within the Mongol Empire the collegial and the patrimonialist Each of these streams represented the economic and political interests of different groups within the Mongol Empire respectively the military aristocracy and the central government The supporters of both streams claimed to adhere to the ideal of Chinggisid rule but their different statuses within the Mongol community led them to hold divergent views of what constituted legitimate political authority Michael Hope's study details the origin of and the differences between these two streams of tradition

analyzing the role that these streams played in the political development of the Mongol Empire and the *lkh nate* and assessing the role that ideological tension between the two streams played in the events leading up to the division of the *lkh nate* Hope demonstrates that the policy and identity of both the Early Mongol Empire and the *lkh nate* were defined by the conflict between these competing streams of Chinggisid authority **ReOrienting Histories of Medicine** Ronit Yoeli-Tlalim, 2021-01-28 It is rarely appreciated how much of the history of Eurasian medicine in the premodern period hinges on cross cultural interactions and knowledge transmissions Using manuscripts found in key Eurasian nodes of the medieval world Dunhuang Kucha the Cairo Genizah and Tabriz the book analyses a number of case studies of Eurasian medical encounters giving a voice to places languages people and narratives which were once prominent but have gone silent This is an important book for those interested in the history of medicine and the transmissions of knowledge that have taken place over the course of global history **Slaves from the North** Jukka Jari Korpela, 2018-10-22 In this book Jukka Korpela offers an analysis of the trade in kidnapped Finns and Karelians into slavery in Eastern Europe Blond slaves from the north of Europe were rare luxury items in Black Sea and Caspian markets and the high prices they commanded stimulated and sustained a long distance trade based on kidnapping in special robbery missions and war expeditions Captives were sold into the Volga slave trade and transported through market webs further south This business differed and was separate from the large scale raids carried out on Crimeans for enslavement in Eastern Europe or the mass kidnappings characteristic of Mediterranean slavery The trade in Finns and Karelians provides new perspectives on the formation of the Russian state as well as the economic networks of official and unofficial markets in Eastern Europe **Ferdowsi, the Mongols and the History of Iran** Robert Hillenbrand, A.C.S. Peacock, Firuza Abdullaeva, 2013-11-18 I B Tauris in association with the Iran Heritage Foundation Iran's rich cultural heritage has been shaped over many centuries by its rich and eventful history This impressive book which assembles contributions by some of the world's most eminent historians art historians and other scholars of the Iranian world explores the history of the country through the prism of Persian literature art and culture The result is a seminal work which illuminates important yet largely neglected aspects of Medieval and Early Modern Iran and the Middle East Its scope from the era of Ferdowsi Iran's national epic poet and the author of the *Shahnameh* to the period of the Mongols Timurids Safavids Zands and Qajars examines the interaction between mythology history historiography poetry painting and craftwork in the long narrative of the Persianate experience As such Ferdowsi the Mongols and the History of Iran is essential reading and a reference point for students and scholars of Iranian history Persian literature and the arts of the Islamic World **The Mongol Empire between Myth and Reality** Denise Aigle, 2014-10-23 In *The Mongol Empire between Myth and Reality* Denise Aigle presents the Mongol empire as a moment of contact between political ideologies religions cultures and languages and in terms of reciprocal representations between the Far East the Muslim East and the Latin West The first part is devoted to The memoria of the Mongols in historical and literary sources in which she examines

how the Mongol rulers were perceived by the peoples with whom they were in contact In Shamanism and Islam she studies the perception of shamanism by Muslim authors and their attempts to integrate Genghis Khan and his successors into an Islamic framework The last sections deal with geopolitical questions involving the Ilkhans the Mamluks and the Latin West Genghis Khan s successors claimed the protection of Eternal Heaven to justify their conquests even after their Islamization
