Boone, Kevin C. Neece, 2016-12-13 *The Abolition of Man* C S Lewis s masterpiece in ethics and the philosophy of science warns of the danger of combining modern moral skepticism with the technological pursuit of human desires The end result is the final destruction of human nature From *Brave New World* to *Star Trek* from steampunk to starships science fiction film has considered from nearly every conceivable angle the same nexus of morality technology and humanity of which C S Lewis wrote As a result science fiction film has unintentionally given us stunning depictions of Lewis s terrifying vision of the future In *Science Fiction Film and the Abolition of Man* scholars of religion philosophy literature and film explore the connections between sci fi film and the three parts of Lewis s book how sci fi portrays Men without Chests incapable of responding properly to moral good how it teaches the Tao or The Way and how it portrays *The Abolition of Man*      *The System of Antichrist* Charles Upton, 2005 *The System of Antichrist* examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little known traditionalist thinkers The book presents lore relating to the latter days of the present cycle from the vantage point of comparative religion drawing upon relevant doctrines from Buddhism Hinduism Judaism Christianity Islam Zoroastrianism and the Native American traditions It also speculates upon the social psychic and

spiritual nature of that being known to Christianity Judaism and Islam as the Antichrist presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents and against the regime which will be and is the social expression of that seduction and that terror Finally in tracing the roots of Antichrist in the fallen nature of man the author sketches the particular quality of spirituality proper to apocalyptic times the dangers it faces the unique opportunities open to it And along the way he describes his own course from the spiritual revolution of the 1960s through the world of New Age spiritualities to the threshold of traditional esoterism and metaphysics As he says speaking of the angst that characterizes the modern world The specific medicine for the shock of despair is the deeper shock of meaning Nothing but the weight of eternity breaking through the thin brittle shell of the postmodern sky can set us on our feet *The Screwtape Letters: Annotated Edition* C.
