## **The Moment Of Christian Witness Communio Books:**

*The Moment of Christian Witness* Hans Urs Von Balthasar, 2012-09-11 Balthasar puts his finger on the precise origin of all those elements in modern Christianity which see the real Jesus Christ as unknowable the Gospels as merely the confused reflections of later Christians and Christian tradition as a perpetuation of the mythology **A Thomistic Christocentrism** Dylan Schrader, 2021-08-13 Examines the theory of the motive behind Christ's incarnation developed by the Samanticenses Discalced Carmelites of Salamanca in the 17th century showing how it perpetuates the tradition of Thomas Aquinas and refutes the more modern theories put forward by Karl Rahner and Hans Urs von Balthasar Witnessing a Wounded World Timothy Middleton, 2025-11-04 A crucial intervention at the intersection of ecotheology and trauma theology We are in the midst of a global ecological crisis At times the scale of the suffering involved can be hard to fully comprehend The whole planetary ecosystem feels out of kilter Meanwhile trauma theorists and society at large have become increasingly aware of the incidence of trauma in a growing variety of contexts In *Witnessing a Wounded World* Timothy Middleton asks what might be gained by viewing ecological suffering through the lens of trauma By bringing concepts and methodologies from trauma theology to bear on questions that arise within ecotheology Middleton engages a series of pressing questions What kind of traumas are being precipitated by anthropogenic climate change and accelerating biodiversity loss What would it mean to envisage the Earth itself as traumatized And how might a Christian theologian respond From large scale deforestation and opencast mining to rampaging wildfires and fracturing ice sheets the Earth itself is subject to intense devastation *Witnessing a Wounded World* analyzes such phenomena in terms of three traumatic ruptures to communication to flesh and to time Drawing on practices of witnessing and the insights of deep incarnation Christologies Middleton proceeds to offer a theological account of this ecological trauma For Christians a model of Christic witnessing can bring the Earth's suffering to light As the first sustained treatment of ecological trauma to address the trauma of the Earth itself *Witnessing a Wounded World* makes a profound contribution to discussions of suffering faith and the present ecological emergency **The Center is Jesus Christ Himself** Cardinal Timothy M. Dolan, Bishop James Massa, 2021-04-02 The polarization in the Church today can be traced back to a more fundamental crisis in theology one which has failed to connect our mundane experiences and the mysteries of the Christian faith with the person of Jesus Christ Ecclesial discourse on the so called hot button issues of the day too often take place without considering the foundation and goal of the Church And this is unfortunately due to a similar tendency in the academic theology that informs that ecclesial discourse In short much of post conciliar Catholic theology is adrift floating aimlessly away from the center of the Christian faith who is Christ The Center is Jesus Christ Himself is a collection of essays which anchor theological reflection in Jesus Christ These diverse essays share a unified focal point but engage with a variety of theological subdisciplines e.g. dogmatic moral Biblical etc areas e.g. Christology Pneumatology missiology etc and periods e.g. patristic medieval and modern Given the different combinations of sub

disciplines areas and periods theology is susceptible to fragmentation when it is not held together by some principle of unity A theology in which the person of Jesus Christ serves as that principle of unity is a Christocentric theology Together the essays illustrate not only what Christocentric theology looks like but also what the consequences are when Christ is dislodged from the center whether by a conspicuous silence on or by a relativization of his unique salvific mission The volume is published in honor of Emeritus Professor of Systematic Theology at Boston College Rev Dr Robert P Imbelli who dedicated his teaching and writing to bringing Christ back to the center of Catholic theological discourse

**Free Thought, Faith, and Science** Roger Pullin, 2014-10-10 FREE THOUGHT FAITH AND SCIENCE FINDING UNITY THROUGH SEEKING TRUTH By Roger Pullin This book covers a hot topic can faith defined as personal belief and trust in God and not as a religious affiliation ever be compatible with science Dr Roger Pullin argues forcefully that faith and science are complementary paths to truth with all truthful spiritual insights and all truthful disclosures through mathematics and science coming from God and that through faith and science we approach one whole body of truth He writes as a marine biologist with a long career in research teaching and consulting mostly in tropical developing countries and as a believer He is an Associate Member of Christians in Science and the Society of Ordained Scientists a Member of the Science and Religion Forum and a Member and former Elder of the Union Church of Manila Philippines Dr Pullin draws together threads from works across theology and science and from personal experiences to offer fresh perspectives on what he calls Free Thought Free Thought has capital letters to distinguish it from our basic thought about the practicalities of life what to eat what to wear how to dodge traffic etc Free Thought is not freethinking as defined conventionally by an outcome of dissent from some religious or other established order No process defined by a specific outcome can be called free Free Thought can have any outcome including agnosticism atheism and faith Free Thought is founded on free will Everyone is free to explore all available information and to choose what to believe No one knows what anyone else truly believes Free Thought is truly free Every human self is a unique combination of a material mind body with a spiritual soul Free Thought is the integrated and iterative processing of information from the material and spiritual realms in one or more common nonmaterial formats across an individual mind soul interface Free Thought connects the material and spiritual realms in every person Our Free Thought and mind soul interfaces make us the agents by which God and the spiritual force for evil can bring about change in the material realm The laws of nature are not suspended to allow so called miracles We have free will The material realm works through free process From this perspective Dr Pullin reviews the human condition faith science the battlefields on which we seek truth in the midst of lies and nonsense and make moral choices the need for reformations in organized religion and revolutions in science and the prospects for faith science unity He recommends expansion of faith science quest for truth by scientific appraisals of subjective evidence from within believers and nonbelievers and by considering the implications of a spiritual realm for brain and consciousness research and a theory of everything This book s 11 chapters can be adapted as a
