Kordemsky,2017-03-23 A non stop train leaves Moscow for Leningrad at 60 miles per hour Another train leaves Leningrad for Moscow at 40 miles per hour How far apart are the trains one hour before they pass each other A man has to row a wolf a goat and some cabbage across a river in a boat which will only hold himself and one of the three If he leaves them alone the wolf will eat the goat and the goat will eat the cabbage How does he get them across These and dozens of other problems of maths logic and common sense appear in this classic Russian puzzle book first published in 1956 Warm charming and lavishly illustrated with over 400 diagrams and sketches ***The Moscow Puzzles*** offers countless hours of entertainment for puzzle lovers of all abilities

***The Puzzle Instinct*** Marcel Danesi,2002-06-19 One of the most famous anagrams of all time was constructed in the Middle Ages The unknown author contrived it as a Latin dialogue between Pilate and Jesus Jesus answer to Pilate's question What is truth is phrased as an ingenious anagram of the letters of that very question Pilate Quid est veritas What is truth Jesus Est virqui adest It is the man before you The origin of anagrams is shrouded in mystery One thing is clear however in the ancient world they were thought to contain hidden messages from the gods Legend has it that even Alexander the Great 356 323 b c believed in their prophetic power from Chapter Two The most obvious explanation for the popularity of puzzles is that they provide a form of constructive entertainment But in ***The Puzzle Instinct*** Marcel Danesi contends that the fascination with puzzles throughout the ages suggests something much more profound Puzzles serve a deeply embedded need in people to make sense of things Emerging at the same time in human history as myth magic and the occult arts the puzzle instinct he claims led to discoveries in mathematics and science as well as revolutions in philosophical thought Puzzles fill an existential void by providing small scale experiences of the large scale questions that Life poses The puzzle instinct is arguably as intrinsic to human nature as is humor language art music and all the other creative faculties that distinguish humanity from all other species
