Sowerby, Tudor Sala, 2022-09-09 This is the first volume that examines dangerous gift giving across centuries and disciplines Bringing to the fore the subject that features as an aside in gift studies it offers new insights into the ambivalent and troubled history of gift giving Dangerous violent and self destructive gift giving remains an alluring challenge for scholars almost a hundred years after Marcel Mauss's landmark work on the gift Globally the notion of toxic and fateful gifts has haunted mythologies folklores and literatures for millennia This book problematizes what stands behind the notion of the dangerous gift and demonstrates how this operational term may help us to better understand the role and place of gift giving from antiquity to the present through a series of case studies ranging from ancient Zoroastrianism to modern digital dating The book develops a complex historical cross cultural and multi disciplinary approach to gift giving that invites comparisons between various facets of this phenomenon through time and across societies The book will interest a wide range of scholars working in anthropology history literary criticism religious studies and contemporary digital culture It will primarily appeal to university educators and researchers of political culture pre modern religion social relations and the relationship between commerce and gifts *Music in the Georgian Novel* Pierre Dubois, 2015-08-13 Music was an essential aspect of life in eighteenth century Britain and plays a crucial role in the literary strategies of Georgian novels This book is the first to investigate the literary representation of music in these works and explores the structural dramatic and metaphorical roles of music in novels by authors ranging from Richardson to Austen Pierre Dubois explores the meaning of musical scenes by framing them within contemporary cultural issues such as the

critique of Italian opera or the theoretical shift from mimesis to the alleged autonomy and mystery of music Focusing upon both eighteenth century theories of music and the way specific musical instruments were perceived in the collective imagination Dubois suggests new interpretative perspectives for a whole range of novels of the Georgian era This book will be of interest to a wide readership interested not only in literature but also in music and cultural history at large
