Integrating examples from their own practice with empirical analysis a team of international contributors provide models of instruction that can be adapted for a variety of settings. This edited collection examines a range of methodological approaches from engaging in identity work to the use of corpora that cultivate future language teachers dispositions and skills in integrating multiliteracies into foreign language classrooms in ways that are contextually situated critical and digitally mediated. Primarily designed for individuals involved in language teacher education the book will also be a key resource for in service professional development opportunities focusing on contemporary language learning and use as well as for researchers interested in efficacious models of SFLTE
