Computational Social Networks Ajith Abraham, Aboul-Ella Hassanien, 2012-06-28 This book is the first of three volumes that illustrate the concept of social networks from a computational point of view. The book contains contributions from an international selection of world class experts with a specific focus on practical tools, applications and open avenues for further research. The other two volumes review issues of Security and Privacy and Mining and Visualization in CSNs. Topics and features: presents the latest advances in CSNs and illustrates how organizations can gain a competitive advantage by applying these ideas in real world scenarios; discusses the design and use of a wide range of computational tools and software for social network analysis; describes simulations of social networks; the representation and analysis of social networks and the use of semantic networks in knowledge discovery and visualization; provides experience reports, survey articles and intelligence techniques and theories relating to specific problems in network technology.

Licensing Standard Essential Patents Igor Nikolic, 2021-11-18 What is the licensing framework of standard essential patents (SEPs) for connectivity standards such as 5G and Wi-Fi? How will the framework change with the Internet of Things (IoT)? This book provides comprehensive answers to these questions. For over two decades, connectivity standards have been the subject of litigation and controversy around the globe. Now, with the introduction of 5G and the emergence of the world of connected objects or the IoT, the licensing framework for SEPs is becoming even more contentious. In order to bring clarity to the debate, this book analyses and explains key components of a fair, reasonable and non-discriminatory FRAND licence for SEPs; clarifies the economic policy and market background of SEP disputes; examines the interrelated application of contract, patent and competition laws and describes the approaches by courts and regulators in the EU, US and the UK. Importantly, the book also assesses how the experience from the smartphone and ICT industries can be applied in a new environment of the IoT and considers what needs to be changed in the future SEP licensing landscape. The book provides a holistic coverage of SEP licensing issues in an attempt to reduce uncertainty within this highly complex and technical area and will be useful to practitioners, policy makers, SMEs and large technology companies in the IoT as well as academics interested in the field.

Bearing Witness While Black Allissa V. Richardson, 2020-05-08 *Bearing Witness While Black* tells the story of this century's most powerful Black social movement through the eyes of 15 activists who documented it. At the height of the Black Lives Matter uprisings, African Americans filmed and tweeted evidence of fatal police encounters in dozens of US cities using little more than the device in their pockets. Their urgent dispatches from the frontlines spurred a global debate on excessive police force which claimed the lives of African American men, women and children at disproportionate rates. This groundbreaking book reveals how the perfect storm of smartphones, social media and social justice empowered Black activists to create their own news outlets which continued a centuries-long African American tradition of using the news to challenge racism. *Bearing Witness While Black* is the first book of its kind to identify three

overlapping eras of domestic terror against African American people slavery lynching and police brutality and explain how storytellers during each period documented its atrocities through journalism What results is a stunning genealogy of how the slave narratives of the 1700s inspired the Abolitionist movement how the black newspapers of the 1800s galvanized the anti lynching and Civil Rights movements and how the smartphones of today have powered the anti police brutality movement This lineage of black witnessing Allissa V Richardson argues is formidable and forever evolving Richardson s own activism as an award winning pioneer of smartphone journalism informs this text Weaving in personal accounts of her teaching in the US and Africa and of her own brushes with police brutality Richardson shares how she has inspired black youth to use mobile devices to speak up from the margins It is from this vantage point as participant observer that she urges us not to become numb to the tragic imagery that African Americans have documented Instead Bearing Witness While Black conveys a crucial need to protect our right to look into the forbidden space of violence against black bodies and to continue to regard the smartphone as an instrument of moral suasion and social change

Encyclopedia of White-Collar and Corporate Crime Lawrence M. Salinger, 2013-06-14 Since the first edition of the Encyclopedia of White Collar and Corporate Crime was produced in 2004 the number and severity of these crimes have risen to the level of calamity so much so that many experts attribute the near Depression of 2008 to white collar malfeasance namely crimes of greed and excess by bankers and financial institutions Whether the perpetrators were prosecuted or not white collar and corporate crime came near to collapsing the U S economy In the 7 years since the first edition was produced we have also seen the largest Ponzi scheme in history Maddoff an ecological disaster caused by British Petroleum and its subcontractors Gulf Oil Spill and U S Defense Department contractors operating like vigilantes in Iraq Blackwater White collar criminals have been busy and the Second Edition of this encyclopedia captures what has been going on in the news and behind the scenes with new articles and updates to past articles
