Investing in Movies Joseph N. Cohen, 2017-05-12 *Investing in Movies Strategies for Investors and Producers* is a useful guide for investors and producers looking for an analytical framework to assess the opportunities and pitfalls of film investments. The book traces macroeconomic trends and the globalization of the business as well as the impact these have on potential returns. It offers a broad range of guidelines on how to source interesting projects and advice on what kinds of projects to avoid as well as numerous ways to maximize risk-adjusted returns. While focusing primarily on investments in independent films, industry veteran and author Joseph Cohen also provides valuable insights into the studio and independent slate deals that have been marketed to the institutional investment community. Features of this book include: A guide to the minefield of film investing for the potential investor giving students and aspiring professionals an insider perspective; A detailed explanation of the risk and rewards inherent in the film business and how to evaluate projects; Thorough coverage of the cast of characters that populate the film space and advice on building relationships to optimize opportunities. *The Business of Media Distribution* Jeffrey C. Ulin, 2019-05-30 In this updated edition of the industry staple, veteran media executive Jeff Ulin relates business theory and practice across key global market segments: film, television, and online digital, providing you with an insider's perspective that can't be found anywhere else. Learn how an idea moves from concept to profit and how distribution dominates the bottom line. Hollywood stars may make the headlines, but marketing and distribution are the behind-the-scenes drivers converting content into cash. The third edition includes perspectives from key industry executives at studios, networks, agencies, and online leaders including Fox, Paramount, Lucasfilm, Endeavor, Tencent, MPAA, YouTube, Amazon, and many more. Explores the explosive growth of the Chinese market, including box office trends, participation in financing Hollywood feature films, and the surge in online usage. Illustrates how online streaming leaders like Netflix, Amazon, Apple, YouTube, Hulu, and Facebook are changing the way TV content is distributed and consumed, and in cases, how these services are moving into theatrical markets. Analyzes online influences and disruption throughout the distribution chain and explains the risks and impact stemming from changing access points, e.g., stand-alone apps, delivery methods over the top, and consumption patterns, e.g., binge watching. Breaks down historical film windows, the economic drivers behind them, and how online and digital delivery applications are changing the landscape. Ulin provides the virtual apprenticeship you need to demystify and manage the complicated media markets, understand how digital distribution has impacted the ecosystem, and glimpse into the future of how film and television content will be financed, distributed, and watched. An online eResource contains further discussion on topics presented in the book. **Business Model Innovation** Chander Velu, 2024-04-30 What strategic challenges are faced by both start-ups and incumbent firms, and what opportunities do these challenges create for business model innovation?
