<p>Dear Mr. Smith,</p> <p>I am writing to you to present the final quality control report for the third quarter of 2018. The report covers all aspects of our production process, from raw materials to finished products. The results are encouraging, with a high rate of compliance across all departments. However, there are a few areas where we can improve.</p> <p>Firstly, we have noticed a slight increase in the number of minor defects in our final products. This is primarily due to fluctuations in the quality of our raw materials, which are sourced from various suppliers. To address this, we have implemented a more rigorous incoming inspection process to ensure that only high-quality materials are used in production. We are also working with our suppliers to improve the consistency of their products.</p> <p>Secondly, we have identified a few areas where our internal quality control procedures can be strengthened. We are currently reviewing our current processes and will be implementing changes to ensure that we are catching more potential problems before they become major issues.</p> <p>Overall, I am pleased with the results of the third quarter. We have made significant progress in improving our quality control processes and are confident that we will continue to do so in the future. Thank you for your time and consideration.</p> <p>Best regards,</p> <p>Andrew William</p> <p>Quality Inspector</p>
