

The background of the cover is a dark, textured surface. A central painting depicts a hand holding a paintbrush. The hand is rendered in a realistic style with visible brushstrokes. Through the fingers of the hand, a face is visible, looking directly at the viewer. The face has a single eye that is more defined than the others. The overall mood is contemplative and artistic.

Teaching The Arts Behind Bars:

Teaching the Arts Behind Bars Rachel Marie-Crane Williams, 2003 America's two million incarcerated men, women, and youth live in a hidden, isolated world filled with depression, anxiety, hostility, and violence. But the nation's soaring prison population has not been forgotten by a dedicated network of visual artists, writers, poets, dancers, musicians, and actors who teach the arts in correctional settings. This anthology compiles the narratives of several accomplished arts in corrections teachers who share their personal experiences, philosophies, and bittersweet anecdotes, as well as practical advice, survival skills, and program evaluation guidelines. *Teaching the Arts Behind Bars* is an invaluable tool for artists, program administrators, and corrections professionals, and a testament to the power of creative expression in promoting communication, positive social interaction, inner healing, and self-esteem.

Teaching the Arts Behind Bars Rachel Marie-Crane Williams, 2003 A discussion of the challenges, rewards, ethical complexities, and emotional toll of working with inmates in adult and juvenile prisons, jails, and rehabilitation centers.

The Arts of Imprisonment Leonidas K. Cheliotis, 2016-12-05 The arts spanning the visual design, performing media, musical, and literary genres constitute an alternative lens through which to understand state-sanctioned punishment and its place in public consciousness. Perhaps this is especially so in the case of imprisonment: its nature, its functions, and the ways in which these register in public perceptions and desires have historically and to some extent inherently been intertwined with the arts. But the products of this intertwinement have by no means been constant or uniform. Indeed, just as exploring imprisonment and its public meanings through the lens of the arts may reveal hitherto obscured instances of social control within or outside prisons, so too it may uncover a rich and possibly inspirational archive of resistance to them. This edited collection sheds light both on state use of the arts for the purposes of controlling prisoners and the broader public, and the use made of the arts by prisoners and portions of the broader public as tools of resistance to penal states. The book also includes a number of chapters that address arts in prisons, programmes making distinctive contributions to the literature on their philosophy, formation, operation, effectiveness, and research evaluation, as well as taking care to explore the politics surrounding and underpinning these multiple themes.
