Cookbook Arnold Kuntz Ph D, 2020-11-27 Greetings fellow mushroom lovers We know that many of you are well versed in the art of preparing and cooking edible wild mushrooms Those of you who are in this category can stop reading now unless you feel that a refresher course in the basics is in order When we say the basics that's exactly what we intend to address We will assume nothing except that you can tell a mushroom from your elbow and would like to be able to enjoy eating mushrooms that are not found in your local supermarket All set then Let's start with the rules What You weren't expecting rules There are definitely rules involved when it comes to picking mushrooms but there are just a few extra but absolute rules involved in preparing cooking and eating them The accent here is in eating them Rule 1 Rule 1 Before you consider eating a wild mushroom that you have picked yourself you must be 100% certain of your identification 99.9% isn't nearly good enough If you're not absolutely certain you may pick them examine them fondle them or take a bath with them but don't even think about putting them on your dinner plate regardless of what method of preparation or cooking you intend to use unless you are 100% certain of your identification A saying we like to use in the mycological community is that There are old mushroom hunters and there are bold mushroom hunters but there are NO old bold mushroom hunters
