Democracy Index 2018 , Democracy Index 2018 provides a snapshot of the state of democracy worldwide for 165 independent states and two territories Find out where your country ranks by downloading this free report *An Overview of the Arab Security Sector Amidst Political Transition* , 2013 The objective of this paper is to highlight the crucial importance of security sector reform during the challenging time of democratic transition Many security services in Arab countries do not utilize modern management practices or computer based administrative systems and lack human resources and career

development departments let alone an inspector general's office to ensure discipline or an internal affairs section to address public complaints. This paper argues that any sustainable governance reform of the social contract in Arab countries in transition is inextricably linked to a new concept of the security sector based on good governance principles that could permeate a new political consensus, profound institutional reforms, and a new legal framework. Security services in these countries must change to serve the public rather than the political interest. For the purpose of accountability, efficiency, and professionalism, and in order to create a culture of institutionalization, civilian oversight of the security sector is essential. For their part, new civilian leaders must ensure that the security sector receives proper equipment and an adequate budget, particularly for salaries and training. Security sector reform in the Arab region must be a cultural and ideological discussion rather than a merely technical one.

Publisher's description: Democracy Index 2012 Economist Intelligence Unit, 2013. This is the fifth edition of the EIU's Democracy Index. *Development And Democracy In The Third World* Abbas

Pourgerami, 1991-10-17. In this original study, Abbas Pourgerami provides a comprehensive analysis of economic development and its relationship to political democracy. Evaluating statistical associations among social, economic, and political performance variables of 104 Third World countries, Pourgerami determines the prospects for democracy in the developing world. He demonstrates that economic well-being and political liberty are mutually reinforcing processes, challenging the traditional notion that economic progress necessitates sacrifices to democratic government.

Chapters: Corruption Perceptions Index, Democracy Index, Freedom in the World, Globalization Index, Globalization Index A T Kearney, Global city, Global Hunger Index, Global Peace Index, Press Freedom Index, Privacy International. Excerpt: Freedom in the World is a yearly survey and report by U.S.-based Freedom House that attempts to measure the degree of democracy and political freedom in every nation and significant disputed territories around the world. Freedom in the World was launched in 1973 by Raymond Gastil. It produces annual scores representing the levels of political rights and civil liberties in each state and territory on a scale from 1 (most free) to 7 (least free). Depending on the ratings, the nations are then classified as Free, Partly Free, or Not Free. The report is often used by researchers in order to measure democracy and correlates highly with several other measures of democracy, such as the Polity data series. The Freedom House rankings are widely reported in the media and used as sources by political researchers. Their construction and use have been evaluated by critics and supporters. The rankings below are from the Freedom in the World 2010, 2011, 2012, and 2013 surveys and reflect events in 2009, 2010, 2011, and 2012 respectively. Each pair of political rights and civil liberties ratings is averaged to determine an overall status of Free (1-2), 5 Partly Free (3-5), or Not Free (6-7). An asterisk indicates countries which are electoral democracies. To qualify as an electoral democracy, a state must have satisfied the following criteria. Freedom House's term electoral democracy differs from liberal democracy in that the

latter also implies the presence of a substantial array of civil liberties In the survey all Free countries qualify as both electoral and *Democracy Index 2011* Economist Intelligence Unit (Great Britain),2011 *The Public* Louis Freeland Post,Alice Thacher Post,Stoughton Cooley,1906
