The Difference Between Fichtes And Schellings System Of Philosophy:

The Difference Between Fichte's and Schelling's System of Philosophy G.W.F. Hegel, 1988-03-04 In this essay Hegel attempted to show how Fichte's Science of Knowledge was an advance from the position of Kant in the Critique of Pure Reason and how Schelling and incidentally Hegel himself had made a further advance from the position of Fichte. Hegel finds the idealism of Fichte too abstractly subjective and formalistic and he tries to show how Schelling's philosophy of nature is the remedy for these weaknesses. But the most important philosophical content of the essay is probably to be found in his general introduction to these critical efforts where he deals with a number of problems about philosophical method in a way which is of general interest to philosophers and not merely interesting to those who accept the Hegelian dialectic method which grew out of these first beginnings. Finally the Difference essay is important in the development of Nature Philosophy as a movement in the history of science

The

Difference between Fichte's and Schelling's Systems Georg Wilhelm Friedrich Hegel, 2024-05-09 Hegel's 1801 work The Difference between Fichte's and Schelling's System of Philosophy marked his emergence as a significant philosophical voice in Jena. Written shortly after Hegel arrived at the University of Jena as a Privatdozent, this essay established him as a follower of Schelling's philosophy. The work was completed in the same year Hegel submitted his inaugural dissertation and began lecturing on Logic and Metaphysics. It coincided with Hegel and Schelling's founding of the *Kritisches Journal der Philosophie* which became an important platform for their philosophical ideas. In this work Hegel critically examined the philosophical systems of Fichte and Schelling, arguing that Schelling's approach was superior. He critiqued Fichte's subjective idealism which emphasized the primacy of the ego and praised Schelling's objective idealism which sought to unify subject and object in a higher principle. Hegel argued that Schelling's philosophy of nature which posited an objective Subject Object alongside the subjective Subject Object represented a more comprehensive philosophical system. This essay not only highlighted the differences between Fichte and Schelling but also laid the groundwork for Hegel's own philosophical development which would culminate in his later works such as the *Phenomenology of Spirit* and *Science of Logic*. Hegel knew both of these Kantian Philosophers personally. The text systematically analyzes how Fichte's emphasis on the absolute I as the foundation of philosophy differs from Schelling's notion of absolute identity or indifference point between subject and object. Hegel argues that while Fichte's system remains trapped in the subjective perspective of consciousness opposing an objective world, Schelling's approach better captures the unity of subject and object finite and infinite that Hegel saw as essential to true philosophical understanding. He develops key concepts that would remain central to his thought including his critique of reflection as a mode of understanding that remains caught in rigid oppositions and his emerging notion of speculation as a

higher form of philosophical cognition that can grasp unity in difference The work also contains early versions of important Hegelian themes like the relationship between the finite and infinite and the role of contradiction in philosophical thinking This modern translation contains an afterword explaining this work s place in his larger body of works the historical background and a timeline of his life and works The modern language and scholarly apparatus are designed to orient the modern reader to Hegel s world with a clean and simple lexicon Hegel generally inaccessible due to the sheer size and intricacy of his thought is explained through the interpretation of Tolstoy Nietzsche Schopenhauer and Heidegger in this Afterword to make his historically important body of work accessible to the armchair philosopher

Contemporary Philosophy Tom Rockmore,1996 Aimed at specialists as well as graduate and select undergraduate students this study centers on Hegel s important but neglected theory of knowledge Professor Rockmore interprets Hegel as reacting to the Kantian effort to reformulate epistemology in the wake of what Kant contends is the failure of earlier dogmatic theories Recent work has shown that Hegel s epistemology is a good deal more respectable than has usually been thought Rockmore s aim is to continue that work in order to bring Hegel into the main discussion of knowledge Rockmore s main argument for the relevance of Hegel s theory to the problem of knowledge is that with the apparent failure of foundationalism Hegel s antifoundationalist theory that sees knowledge as perspectival and historical supplies two items helpful to advance the epistemological discussion

Philosophy and History ,1975 **History of philosophy** Thomas Hunter,1900 **The Philosophical Rupture between Fichte and Schelling** J. G. Fichte,F. W. J. Schelling,2012-03-23 The disputes of philosophers provide a place to view their positions and arguments in a tightly focused way and also in a manner that is infused with human temperaments and passions Fichte and Schelling had been perceived as partners in the cause of Criticism or transcendental idealism since 1794 but upon Fichte s departure from Jena in 1799 each began to perceive a drift in their fundamental interests and

allegiances Schelling's philosophy of nature seemed to move him toward a realistic philosophy while Fichte's interests in the origin of personal consciousness intersubjectivity and the ultimate determination of the agent's moral will moved him to explore what he called faith in one popular text or a theory of an intelligible world. This volume brings together the letters the two philosophers exchanged between 1800 and 1802 and the texts that each penned with the other in mind. *History of Philosophy, for Use in High Schools, Academies, and Colleges* Thomas Hunter, 1900. **The national encyclopædia.
