The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists
of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism
surrealism and abstraction In this economic and political history O K Werckmeister traces Klee s career as a professional
artist concentrating on the years 1914 20 in which Klee rose from obscurity to recognition in the visual culture of the
incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from
politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich
documentary evidence records of Klee s sales reviews of his exhibitions the artist s published writings about his art
unpublished correspondence as well as contemporary criticism Werckmeister follows Klee s transformation from an
idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image
was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture
prompted Klee s success first in the war weary modernist art world of 1916 18 and then in the pseudo revolutionary art
world of 1919 20 This work is a critical challenge to the myth of Klee s art and to the hagiography of his artistic personality
Werckmeister s historical account is sure to be a controversial yet significant contribution to Klee studies one that will
change the nature of Klee scholarship for some time to come Magazin für die Literatur des In- und Auslandes, 1898
