Borges and the Literary Marketplace Nora C. Benedict, 2021-09-14 A fascinating history of Jorge Luis Borges s efforts to revolutionize and revitalize literature in Latin America Jorge Luis Borges 1899 1986 stands out as one of the most widely regarded and inventive authors in world literature Yet the details of his employment history throughout the early part of the twentieth century which foreground his efforts to develop a worldly reading public have received scant critical attention From librarian and cataloguer to editor and publisher this writer emerges as entrenched in the physical minutiae and social implications of the international book world Drawing on years of archival research coupled with bibliographical analysis this book explains how Borges s more general involvement in the publishing industry influenced not only his formation as a writer but also global book markets and reading practices in world literature In this way it tells the story of Borges s profound efforts to revolutionize and revitalize literature in Latin America

through his varying jobs in the publishing industry *Persistence through Time in Spinoza* Jason Waller, 2012-08-31 This book concerns the nature of time and ordinary cases of persistence in Spinoza The author argues for three major interpretive claims First that Spinoza is committed to an eternalist theory of time whereby all things whether they seem to be past present or future are equally real Second that a mode's conatus or essence is a self-maintaining activity not an inertial force or disposition Third that modes persist through time in Spinoza's metaphysics by having temporal parts that is different parts at different times If the author is correct then a significant reinterpretation of Spinoza's modal metaphysics is required The book also puts Spinoza into dialogue with some recent work in analytic metaphysics **Readings in Evolution, Genetics, and Eugenics** Horatio Hackett Newman, 1921 **Proceedings and Addresses of the American Philosophical Association** American Philosophical Association, 2017-11 List of members in v 1 **Life and Death** Jonathan Westphal, Carl Avren Levenson, 1993-01-01 Life and Death brings together philosophical and literary works representing the many ways metaphysical scientific analytic phenomenological literary in which philosophers and others have reflected on questions about life and death **Presentism** Ernâni Magalhães, Nathan L. Oaklander, 2010-10-28 There is no time like the present Is it also true that there is no time but the present According to presentism the present time is special in the most fundamental sense because all of reality is included in it What is past is no longer what is future is yet to be This philosophy of time with roots as far back as Saint Augustine and beyond is the focus of vigorous and widespread discussion in contemporary philosophy Presentism Essential Readings brings together for the first time the seminal works by both presentists and their opponents Works by Augustine McTaggart Prior Craig and others address a wide array of issues concerning presentism How can time pass if everything is present Is there no future to come to the present nor a past to receive the present How can there be truths about the past Generally a statement is true because of events in reality But if presentism is correct then the past would seem to lack a basis in reality If only the present is real how can things last To persist seems to require that something exist at more than one time but presentism holds that there is only one time the present The collected essays on presentism address these and other aspects of the debate a debate that is just beginning With explanatory introductions written by the editors Presentism Essential Essays will fascinate and stretch the minds of both scholars and novices alike

Forthcoming Books Rose Arny, 2003-04 **The Logic of Rational Theism** William Lane Craig, Mark S. McLeod, 1990 This collection of essays covers three broad areas religious epistemology theistic arguments and God's relationship to human life value and the world Three essays evaluate and extend the recent suggestion that beliefs about God do not need discursive evidence to be held rationally Four essays take up the contemporary interest in arguments for God's existence Two consider the Kalam cosmological argument a third the theological argument and its relationship to the Anthropic principle and a fourth develops an epistemological argument for God's existence The remaining five essays consider the doctrine of God's providence the meaning of life the Euthyphro dilemma the nature of death and virtue theory Written in
