measurements made by his researchers at UCLA Dr Heber has come up with tables that estimate how much protein you need in your diet at a given height and weight and how many calories you should consume every day Then Dr Heber helps you

build your own ideal diet starting with protein then 7 colorful servings of fruits and vegetables providing 25 grams of filling fiber and finally whole grains Dr Heber explains not only glycemic index how fast blood sugar goes up but glycemic load

glycemic index how much carbohydrate a food provides which determines how a particular food affects the overall diet He groups foods into four tables to make it easy for readers to navigate their dinner table In a world of dietary fads and one size fits all pseudo miracle diets The LA Shape Diet is the most effective easy to follow scientifically sound dietary plan you ll find
