These case study analyses provide an overview of the legal, economic and financial implications that such external funding has on the country at different times and in different economic contexts. Of particular import at all times is the public finance legal framework and this is especially the case for the new European funding structures which has attracted some criticism. And for any future IMF financial assistance and its political implementation implications. Portuguese Economic Development and External Funding in the Modern Era provides important insights into economic development, crisis management, financial assistance and European investment funds. While the work is Portuguese centred, the topics investigated and the means of analysis adopted are applicable to other countries. This is the first book to address economic development and external funding and it will inevitably be used as a template for future research.
