## **Teaching Your Children Values:**

**Teaching Your Children Values** Richard Eyre,Linda Eyre,2010-05-11 One of the greatest gifts you can give your children is a strong sense of personal values Helping your children develop values such as honesty self reliance and dependability is as important a part of their education as teaching them to read or how to cross the street safely The values you teach your children are their best protection from the influences of peer pressure and the temptations of consumer culture With their own values clearly defined your children can make their own decisions rather than imitate their friends or the latest fashions In *Teaching Your Children Values* Linda and Richard Eyre present a practical proven month by month program of games family ctivities and value building ecercises for kids of all ages *Teach Your Children Values* Sharon Vincz Andrews,Cynthia D. Ali,1997 This book includes four sections on helping children grow into successful individuals family members students and citizens **Teach Your Children Values: 95 Things Parents Can Do!... **Department Of Education** ,1998 *E Is for Ethics* Ian James Corlett,2009-12-08 Teaching children ethics values and morals has become a real challenge for parents today These topics aren t usually covered in school curriculums and many families no longer attend religious services so most modern moms and dads are clamoring for a helping hand Ian James Corlett an award winning children s TV writer was inspired to write this book as his own family grappled with this issue When Ian s two kids were very young he and his wife started a weekly discussion period he dubbed Family Fun Time Every Monday after dinner they all sat down and Ian would tell his two kids tales about two young children Elliott and Lucy who were much like them They hated going to the dentist They were disappointed when a favorite aunt couldn t visit They dreaded raking the leaves in their backyard Ian s kids really looked forward to these talks and they hardly even realized that the stories were serving a deeper purpose to teach tact understanding and responsibility So he decided to write these stories down to help other parents like you The result is in your hands twenty six simple clear original and entertaining stories for you to read aloud with your child Teaching your children values life skills and ethics has never been so much fun *40 Ways to Teach Your Child Values* Paul Lewis,1997 Honesty Courage Friendship Making choices Cleanliness Character Self esteem A sense of humor Servanthood Family traditions 40 Ways to Teach Your Child Values gives you practical guidelines that enable your child to develop the skills attitudes and values needed to navigate life successfully Short five minute chapters offer practical tips for developing each skill value or attitude in your child A special section helps you track your child s growth and key parenting principles are bulleted for easy comprehension Here are the basics for helping your child reach emotional mental and spiritual maturity *Forty Ways to Teach Your Child Values* Paul Lewis,1985 *Successful Parenthood; how to Teach Your Child Values, Competence, and Responsibility* Wesley C. *Let's Teach Our Children Values, Right Now* Guadalupe Treviño,2016-09-13 Values Who really needs them This book brings together people who share the same interest helping children discover and express their inner potential and be happy

with themselves It is hard to think of a greater reward in life Sometimes we doubt whether it s worth teaching positive attitudes to children when we live in such a negative world Sometimes we wonder if respecting values is something outdated as it seems that nobody needs them But you and I know with certainty from the bottom of our hearts that we already have an answer to these questions we know that you will you reap what you sow We know that universal values don t change they don t go out of fashion We believe that just as we devote a lot of time teaching our children to read write and do math it is also imperative that they are also taught to live by the values of truth honesty love goodness spiritual beauty among others We live or rather suffer a crisis of values lack of credibility lack of leadership and it is only natural that we have this void in society being a leader requires being congruent with nothing less than universal values Our kids are exposed to a constant bombardment of information cynicism violence materialism corruption sex Advertising shouts at them that what really matters is what you own not who you are they teach them a life without efforts the quick fixes and without obligation where what s attractive is violence It is imperative that we act right now We must be the type of parents that can influence and can promote values to our children We the parents are the undisputed teachers who need to instill values in our children If you do not teach them someone else will do it for you and maybe without the interest understanding and parental love that only you can bring to this discussion We know that our children are at such a young age only once they grow up quickly therefore we must use this precious time to influence those lives that we have been entrusted with This is not a book that will help you discover your mission in life it already assumes that you consider your mission or vocation to teach and promote values to your children and that you consider this your greatest legacy You and I do not know what world our children will be living in when they are older but what we can predict is what kind of children we are letting into the world

Teaching Children Values M. E. D. ADAM, 2020-05-04 The responsibilities you take on when you become a parent are endless You are responsible for the physical emotional psychological social and spiritual future of this new life you have brought into the world In addition to taking care of a child s immediate physical needs such as food and shelter parents are also responsible for raising their children to be good citizens who contribute positively to their community Many parents tend to think their child is too young to start learning the skills they will need later in life to function as an adult This is not true The earlier you start teaching your children the essential life skills they need the more natural their transition to adulthood will be Growth psychologists highly recommend this type of coloring books to improve the children s sense of personal values This book contains a set of valuable principles which will be recognized by the child while he is coloring the pictures attached

to it This book is designed to help children to build a balanced personality The character representing a teacher points to the wrong verbs represented in the drawing On the next page the professor lists the good qualities expressed through the drawings and that the child must have in order to be a respectful smart and strong child **Joy School** Richard Eyre,Linda Eyre,2020-09 From 1 New York Times bestselling authors Richard and Linda Eyre Their bestselling parenting book **Teaching Your Children Values** topped the charts and took the Eyres to Oprah and beyond **Joy School** is the Eyres s first children s book to teach those very same values directly to kids Huge built in market the Eyres s **Joy School** program has been used by at least 500 000 kids and their families Filled with trendy fresh illustrations that breathe new life into traditional values 22 children s stories and poems that teach specific values which include Joy of the Body Joy of the Earth Joy of Honesty and Communication Joy of Sharing and Service Joy of Goals and Order Joy of Confidence Joy of Wonder Joy of Imagination and Creativity Joy of Family Joy of Uniqueness

**Moral Parenting** Anthony Ekanem,2015-09-03

There are numerous things in today s society that can be very damaging to a child s moral values That is why it is important as a parent to take every opportunity that presents itself to teach your children about the importance of having strong moral values Having a strong moral base can make a huge impact on the ability of your child to make correct decisions in the future Without good moral values they will likely make many bad decisions that will be bad for their future and not allow them to live to their full potential It is important that you begin working on your child s moral values at a very early age The earlier they learnt the easier it will be for them to stick to these values Some people may have missed out on their lessons from their parents so they do not know how to teach values to their children while others were taught and are still unsure of how to pass these values to their child If you are one of these people do not worry this book is full of information that will surely be helpful for you while trying to instil positive

morals and values into your child You may feel discouraged and may feel as if you will not be able to do your job as a parent and teach your child positive morals and values Do not feel this way It is possible and you can do it
