Teaching And Christian Practices Reshaping Faith And Learning:

Teaching and Christian Practices David Smith, James K. A. Smith, 2011-10-10 In *Teaching and Christian Practices* several university professors describe and reflect on their efforts to allow historic Christian practices to reshape and redirect their pedagogical strategies Whether allowing spiritually formative reading to enhance a literature course employing table fellowship and shared meals to reinforce concepts in a pre nursing nutrition course or using Christian hermeneutical practices to interpret data in an economics course these teacher authors envision ways of teaching and learning that are rooted in the rich tradition of Christian practices as together they reconceive classrooms and laboratories as vital arenas for faith and spiritual growth

Faith-Integrated Being, Knowing, and Doing Sarinah Lo, 2020-08-31 In this holistic study of the integration of faith and learning Dr Sarinah Lo challenges the Western tendency to privilege knowing over being and doing In the context of Indonesian higher education Dr Lo addresses the cognitive affective spiritual relational and vocational aspects of human nature She demonstrates that effective integration of faith and learning must reach beyond the academic disciplines to address the formation of a Christian perspective in all areas of life thought and practice Utilizing in depth interviews and qualitative analysis Dr Lo s field research explores the specific challenges facing Christian faculty in Indonesia where the rise of radical Islam and the pressure to conform to state ideology raise unique questions about the nature of faith learning integration The first study of its kind this is an excellent resource for educators wanting to think more broadly about what it means to follow Christ in the classroom pushing beyond Western models of integration to embrace the more holistic approach of faith integrated being knowing and doing

A Descriptive Twelve Year Longitudinal Comparison of Change in Policies and Practices Associated with the Same Select Group of Christian Colleges James M. Vandermeulen, 1986

Everyday Christian Teaching David I. Smith, 2025-02-20 Discover how ordinary moments in the school year can become occasions for making profound connections between faith and pedagogy In this encouraging and practical book education expert David I Smith invites Christian educators on a journey through the school year that will deepen their capacity to make thoughtful connections between their faith and their pedagogy Mirroring the rhythms of an academic year the book embraces and explores the mundane moments that all teachers experience every semester Starting the course Setting some norms for interaction Choosing how to frame the material Assigning tasks Repeating things Pausing Bringing things to a close The topics are deliberately ordinary because as Smith demonstrates the shape of one's teaching is mainly built from the unspectacular choices and actions that gradually shape the texture of life in the classroom If educators want to think well about Christian faith and teaching and act well in the classroom they need to learn to reflect well on those ordinary steps in the journey

Everyday Christian Teaching builds on Smith's previous book *On Christian Teaching Practicing Faith in the Classroom* where he made a persuasive case for connecting faith and pedagogy The new book aims to put this idea into practice as Smith explains in the introduction Suppose we want to get better at thinking about faith and teaching together What then What does the road look like and how do we walk it wisely If we'd like to be a pilgrim how do we make progress Taking up such questions with wisdom and empathy *Everyday Christian Teaching* helps educators develop faith informed insights and life giving practices that can transform their teaching over the course of time

Teaching for Spiritual Formation Kyle R. Hughes, 2022-01-06 In *Teaching for Spiritual Formation* church historian and experienced Christian educator Kyle R Hughes advances a fresh vision

of Christian teaching and learning by drawing upon the riches of the Christian tradition synthesizing the wisdom of the early church fathers with contemporary efforts to cultivate a distinctively Christian approach to education Of interest to a wide range of Christian educators this book examines how the writings of five significant church fathers can illuminate our understanding of the vocation of teachers the nature of students the purpose of curriculum decisions about pedagogy and how spiritual formation works Besides reimagining these aspects of Christian education Hughes also offers habits and practices that can help bring this vision of Christian teaching and learning to life challenging Christian educators to sharpen their approach to the integration of faith and learning in practical and accessible ways *Pedagogy and Education for Life* Trevor H. Cairney, 2018-04-30 There are many books on Christian education but few consider pedagogy with a biblical focus on formation and a grounding in varied related disciplines This book seeks to recapture the term pedagogy and place it at the center of the teacher s role not as a pseudonym for other things but as the critical foundation for the orchestration of classroom life This is a view of pedagogy that accepts that children come to classrooms as inhabitants of multiple and varied communities Some are known and shared with teachers but many are not Children cannot be left to find their way in the world for as they encounter competing and contradictory worlds their hopes dreams and intentions are shaped Teachers play a key role in students formation by shaping classroom life for all of life is used by God to reveal himself The things taught the priorities set and activities planned the experiences structured and books shared indeed everything in and outside school acts upon and shapes our students Pedagogy is the vehicle for shaping the life of the school Learning requires more than subject content and good teaching The central task of teachers is the development of a pedagogy that shapes life This book offers challenge and guidance as teachers engage in this noble task **Perspectives on Science and Christian Faith** ,2007 **Presbyterian Outlook** ,1964 *Christian Scholar's Review* ,2006 *The Catholic Periodical and Literature Index* ,2004 *The Christian Century* ,1942 **Christian Social Action** ,1993 *American Doctoral Dissertations* ,2001
