### **Handbook of Language and Ethnic Identity**

Joshua Fishman,Ofelia García,2011-04-21 Like the first volume The Handbook of Language and Ethnic Identity Volume 2 is a reference work on the interconnection between language and ethnic identity In this volume 37 new essays provide a systematic look at different language and ethnic identity efforts assess their relative successes and failures and place the cases on a success failure continuum The reasons for these failures and successes and the linguistic social and political contexts involved are subtle and highly complex Some of these factors have to do with whether the language is considered a dialect as in the cases of Bavarian Ebonics and Scots considered to be dialects of German American English and British

English respectively Other factors have to do with government policy as in the cases of Basque and Navajo Still other factors are historical such as the way Canaanite was supplanted in present day Israel by another classical language Hebrew Although the volume offers considerable sophistication in the treatment of language ethnicity and identity it has been written for the non specialized reader whether student or layperson The contributors are an international group of well known scholars in a range of fields Fishman and Garc a provide a detailed introduction that addresses the difficulty of assessing the success or failure of a language They also present a conclusion that integrates the data presented in the volume

Foundations of Bilingual Education and Bilingualism Colin Baker,2011-02-18 The fifth edition of this bestselling book provides a comprehensive introduction to bilingualism and bilingual education In a compact and clear style its 19 chapters cover all the crucial issues in bilingualism at individual group and national levels These include defining who is bilingual and multilingual testing language abilities and language use languages in communities and minority groups endangered languages language planning language revival the development of bilingualism in infancy and childhood bilingualism in the family age and language learning adult language learning bilinguals thinking skills bilingualism and the brain theories of bilingualism types of bilingual education heritage language education evaluations of bilingual education minority language literacy biliteracy and multiliteracies effective teaching and learning methods in bilingual classrooms the effectiveness of bilingual education in the United States the history of bilingual education in the United States language minority underachievement bilingual special education the assessment of language minority children Deaf bilinguals the spread of English as a global language learning English as a second or third language language identity and multiple identities the politics surrounding language minorities and bilingual education assimilation and pluralism bilingualism and employment bilingualism and the internet

**Cultural Diversity** Xabier Irujo Ametzaga,Viola Miglio,2014 There are around 6 000 living languages in the world but as of 2012 less than 4 percent of them can claim official status in one of more of the 196 existing states This lack of official status along with other cultural political and legal factors is contributing to a worldwide loss of linguistic diversity and cultural richness The essays in this book explore the many facets of language rights and language protection from a variety of theoretical legal and academic perspectives Important lessons are taken from the Basque case in Europe and Native American and French Canadian cases in North America Woven throughout the book is the belief in the power of discourse and research to protect and even enhance linguistic diversity through legal recognition and other means Language protection however is only possible if we encourage the acceptance of cultural diversity and multilingualism as a positive outcome for the whole population of the state not just for a minority with in it We should abandon the idea of the monolingual mono cultural nation state and encourage the population of each country to adopt the concept of a multi cultural state
