Podemos desde la educación literaria contribuir a la formación integral del ser humano. Qué incidencia tiene el análisis crítico del discurso literario consumido por el alumnado de las diferentes etapas educativas en torno a la diversidad en el desarrollo de su competencia lectora y literaria. Qué tipos de diversidad adquieren mayor protagonismo en las producciones literarias destinadas a niños y jóvenes. Las respuestas proceden de una didáctica de la literatura centrada en la perspectiva del receptor: el desarrollo de su competencia lectoraliteraria y el placer por el texto literario. De la mano de diferentes expertos, el volumen conjuga la vertiente teórica con la praxis de aula a través de estudios y propuestas coherentes para los diferentes niveles educativos. El volumen pretende ofrecer una aproximación rigurosa a una línea de investigación de creciente interés en la educación literaria contemporánea y responder a uno de sus retos: la formación de lectores críticos y reflexivos. Desde esta perspectiva supone un punto de referencia en cuanto al estudio de los vínculos entre educación literaria y diversidades y a sus posibilidades para el desarrollo de la competencia lectoraliteraria y la formación de hábitos lectores como pilar para la construcción de las diferentes identidades y pertenencias del ser humano y el ejercicio crítico de las ciudadanas en sociedades democráticas.

Representaciones cómicas de la discapacidad Susanne Hartwig, Soledad Pereyra, 2024-11-04
This volume analyzes the ambivalence of comic representations of disability in fictional texts, films and stage performances as well as the ambivalence of reception. It seeks to describe precisely what kind of comicality is used and what communities of laughter are created as a result under what conditions does comedy turn into violence and cruelty and liberating distancing into stigmatization and exclusion.

Porque solo trabajando de manera colectiva se logra el verdadero y necesario cambio. Una transformación que pone en valor el poder de la educación y la socialización y que deja patente que solo desde la base podremos prevenir la violencia en todas sus formas conformando personas justas, respetuosas, dialogantes y tolerantes para las que no exista otra opción que la igualdad entre todos los seres humanos.
