Waiting For Service Amas Tenumah, 2021 You hate waiting in line or on the phone for customer service. There have been plenty of books about customer service that all seem to offer secrets to improve customer service. This is not that book. I instead want to focus on why customer service is so broken and give you the secrets to get around it. Customer service is bad by design. Your bad customer service is not random; it is intentional. Customer service is universally terrible; this is not an opinion. You do not have to believe me; I am saying it is raining outside, and you can simply look out the window. I spent two decades helping dozens of your favorite brands with customer service. You will laugh, get mad, all over again at some of the conversations I have had with executives around customer service. I name names, expose Customer Service nightmares from Travel to Cable, Walmart, fast food, and so much more. I also provide you with how to get around bad service and offer radical thinking to reset customer service. Amas Tenumah *180 Ways to Walk the Customer Service Talk* Eric Lee Harvey, Walk the Talk Team, 1999 *180 Ways To Walk The Customer Service Talk* is the resource you'll want to read and distribute to every person in your organization. Packed with powerful strategies and tips to cultivate world-class customer service, this handbook promises to be the answer to getting everyone walking the Customer Service Talk and building a reputation of service integrity. At its low price, if everyone adopts just a few ideas to help ensure customers come back again, this book will pay for itself. All employees at every level of the organization need this powerful guide, from front-line employees to call center representatives, sales people, telemarketers, managers, client services, and marketing teams. Total Customer Service William H. Davidow, Bro Uttal, 1989 A renowned marketing genius and one of today's foremost business journalists team up to unveil the new business trends of the 1990s and their prescriptions for business success. **The Best Service is No Service** Bill Price, David Jaffé, 2011-09-14 In this groundbreaking book, Bill Price and David Jaffé offer a new game-changing approach, showing how managers are taking the wrong path and are using the wrong metrics to measure customer service. Customer service, they assert, is only needed when a company does something wrong; eliminating the need for service is the

best way to satisfy customers To be successful companies need to treat service as a data point of dysfunction and figure out what they need to do to eliminate the demand The Best Service Is No Service outlines these seven principles to deliver the best service that ultimately leads to no service Eliminate dumb contacts Create engaging self service Be proactive Make it easy to contact your company Own the actions across the company Listen and act Deliver great service experiences **CUSTOMER SUPPORT IN 2025**
