## **The Best Web Sites for Teachers**

Vicki F. Sharp,Martin G. Levine,Richard M. Sharp,2002 *Best Educational Internet Sites for Science and Math* Students Victoria Chase,Heidi Frederick,Karen Hollingsworth,Edward W. Knappman,1998

## **The Elementary School Library Collection, Phases 1-2-3 ,1970**

Understanding and Managing Children's Classroom Behavior Sam Goldstein,Robert B. Brooks,2008-06-02 This book sets the standard in delivering a comprehensive state of the art approach for understanding treating and preventing classroom behavior difficulties It should be on the bookshelves of all professionals who work in school settings I will certainly recommend this text to my colleagues and students George J DuPaul PhD

Professor of School Psychology Associate Chair Education and Human Services Lehigh University A classic guide to creating a positive classroom environment Covering the most recent and relevant findings regarding behavior management in the classroom this new edition of Understanding and Managing Children's Classroom Behavior has been completely updated to reflect the current functional approach to assessing understanding and positively managing behavior in a classroom setting With its renewed focus on the concept of temperament and its impact on children's behavior and personality Understanding and Managing Children's Classroom Behavior emphasizes changing behavior rather than labeling it Numerous contributions from renowned experts on each topic explore How to identify strengths and assets and build on them Complete functional behavioral assessments The relationship between thinking learning and behavior in the classroom Practical strategies for teachers to improve students self regulation How to facilitate social skills Problem solving approaches to bullies and their victims Medications and their relationship to behavior The classic guide to helping psychologists counselors and educators improve their ability to serve all students Understanding and Managing Children's Classroom Behavior Second Edition will help educators create citizens connected to each other to their teachers to their families and to their communities

*Mathematics Assessment and Evaluation* Thomas A. Romberg, 1992-07-01 Are current testing practices consistent with the goals of the reform movement in school mathematics If not what are the alternatives How can authentic performance in mathematics be assessed These and similar questions about tests and their uses have forced those advocating change to examine the way in which mathematical performance data is gathered and used in American schools This book provides recent views on the issues surrounding mathematics tests such as the need for valid performance data the implications of the Curriculum and Evaluation Standards for School Mathematics for test development the identification of valid items and tests in terms of the Standards the procedures now being used to construct a sample of state assessment tests gender differences in test taking and methods of reporting student achievement

**The Best Science Books & A-V Materials for Children** Susan M. O'Connell, 1988 Some scientists and science educators believe that the most effective strategy for raising science literacy among future workers and voters is to focus on the youngest members of the public The reviews in this publication were undertaken to increase public understanding and appreciation of the importance and promise of the methods of science in human progress This publication is directed towards librarians teachers and parents who are concerned about science information and education for children 5 through 12 years of age and covers science and mathematics books films filmstrips and videocassettes These materials cover the life and physical sciences mathematics engineering and technology medicine and the social and behavioral sciences A wide range of topics is covered including science museums environmental problems careers in science oceanography insect culture robots and the ancient world

Audiovisual materials include such diverse topics as energy and resources chemical interactions meteorology aquatic environments zoological sciences medicine and engineering The indexes list authors titles and subjects series titles and distributors Availability and cost information are provided in the annotations RT *Visualizing Elementary and Middle School Mathematics Methods* Joan Cohen Jones,2011-11-15 The goal of Visualizing Elementary and Middle School Mathematics Methods is to teach mathematics in a way that excites and motivates readers with an accessible format that serves as an introduction to the teaching of mathematics This text in partnership with National Geographic is designed to present mathematics content and pedagogy in a fresh new way This unique approach while maintaining necessary rigor provides the opportunity to set aside previous beliefs about mathematics and to learn concepts and pedagogy from a new perspective The structure of Visualizing Elementary and Middle School Mathematics Methods is similar to the format of other methods texts however it has many unique features that are designed to be engaging and make the text relevant for readers It begins with a brief summary of the history of mathematics Diversity is integrated into the content of every chapter through Multicultural Perspectives in Mathematics Several chapters include Virtual Classroom Observation Videos

Eliciting Children's Full Potential Sylvia G. Feinburg,Mary Mindess,1994 Eliciting Children's Full Potential is an excellent resource for the recreation of high quality programs for young children ages three to eight that helps readers to develop a deeper understanding of the cognitive developmental model including how it is like and unlike other child centered models and how it links theory with classroom practice design and implement programs from a cross cultural inclusionary perspective providing intellectual challenge stimulating creative thinking and strengthening children's social cognition and engage in continuous professional growth through a process of positive self and peer evaluation The book also contains classroom vignettes drawn from a wide range of environments a system for classroom observation and classroom evaluation instruments
