Ezrow, Erica Frantz, 2013-07-18 What do we mean by failed states and why is this

concept important to study The failed states literature is important because it aims to understand how state institutions or lack thereof impact conflict crime coups terrorism and economic performance In spite of this objective the failed state literature has not focused enough on how institutions operate in the developing world This book unpacks the state by examining the administrative security judicial and political institutions separately By doing so the book offers a more comprehensive and clear picture of how the state functions or does not function in the developing world merging the failed state and institutionalist literatures Rather than merely describing states in crisis this book explains how and why different types of institutions deteriorate Moreover the book illustrates the impact that institutional decay has on political instability and poverty using examples not only from Africa but from all around the world

*The Handbook of European Defence Policies and Armed Forces* Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe

**Book Review of When States Fail** Edward Peter Stringham, 2014 Do weak governments around the globe merit assistance The premise of When States Fail Causes and Consequences is that without strong government society devolves into chaos Sponsored by the Harvard University Failed States Project this edited volume contains fourteen chapters most of them written by political scientists Not all authors come to the same conclusions but they agree on most issues Thus I will treat the arguments collectively The writers argue that the United States and other nations have a positive role to play in helping at risk governments become strong That most contributors are mainstream political scientists rather than Austrian economists becomes evident quickly As the old saying goes when all you have is a hammer everything starts looking like a nail In the

case of these political scientists they clearly believe that scientifically designed government institutions are needed to solve all of the world's problems      *Organized Crime, Political Transitions and State Formation in Post-Soviet Eurasia* A.

Kupatadze, 2012-01-25 Based on over 130 interviews with criminals law enforcement officials and government representatives from post Soviet Georgia Ukraine and Kyrgyzstan this book situates organized crime in the debate on state formation and examines the diverging patterns in organized crime following the aftermath of these countries Coloured Revolutions      **Georgia: Revolution and War** Rick Fawn, 2016-03-23 The post Soviet country of Georgia has generated surprise upon surprise Its Rose Revolution in 2003 marked the first time an existing leadership of a post Soviet state was forced to surrender power peacefully The new leadership of Western educated Mikheil Saakashvili initiated wide ranging domestic reforms including a large scale unprecedented anti corruption drive It also intensified relations with the West and sought membership of the EU and NATO The Georgian leadership's expressed aim of re integrating territories lost in wars in the early 1990s resulted in a devastating conflict with Russia in 2008 All these developments and their wider implications receive careful yet readable attention in this collection by a truly international and specialist group of authors and practitioners The book offers a spectrum of opinion and compelling insight into the events and decisions that have recently shaped this fascinating yet understudied country and placed it at the forefront of interest in the changes transforming post Soviet Eurasia This book is based on a special issue of European Security      **Troubled Regions and Failing States**

Kristian Berg Harpviken, 2010-07-07 Is the phenomenon of state failure better understood through a focus on the regional context To what extent may studies of regional security benefit from a focus on the capacities and vulnerabilities of the states involved This title addresses these questions      Global Crises, Global Solutions Bjørn Lomborg, 2004-10-25 A unique

publication exploring the opportunities for addressing ten of the most serious challenges facing the world today Climate Change Communicable Diseases Conflicts Education Financial Instability Corruption Migration Malnutrition and Hunger Trade Barriers Access to Water In a world fraught with problems and challenges we need to gauge how to achieve the greatest good with our money Global Crises Global Solutions provides a rich set of arguments and data for prioritising our response most effectively Each problem is introduced by a world renowned expert defining the scale of the problem and describing the costs and benefits of a range of policy options to improve the situation Each challenge is evaluated by economists from North America Europe and China who attempt a ranking of the most promising options Whether you agree or disagree with the analysis or conclusions Global Crises Global Solutions provides a serious yet accessible springboard for debate and discussion      Redefining the Pacific? Jenny Bryant-Tokalau, Ian Frazer, 2006 This comprehensive volume

examines the future effectiveness of regional institutions as well as key questions concerning the attempts to overcome ongoing serious problems of security governance and poor economic performance in the Pacific      Failed and Failing States Muna Ndulo, Margaret Grieco, 2010 State collapse is one of the major threats to peace stability and economic development in

Sub Sahara Africa today In a collapsed state the regime finally wears out its ability to satisfy the demands of the various groups in society fails to govern and to keep the state together The collapse is marked by the loss of control over political and economic space A collapsed state can no longer perform its basic security and development functions and has no effective control over its territory and borders Major challenges confront efforts to avoid collapsed states drawing other countries into a wider conflict and to create structures and favorable conditions to lead to national reconciliation and the reconstruction of a state that has collapsed The Cornell Institute for African Development called a symposium entitled Failed and failing states in Africa lessons from Darfur and beyond to address these critical issues at the Institute for African Development Cornell University April 18 19 2008 Key contributions at the symposium are brought together in this volume Taken together these essays represent a significant discussion on the challenges presented by the presence of failed and failing states within Africa

**Ibom Journal of History** ,2013      **From Fragile State to Functioning State** Sabine Collmer,2009 The phenomenon of state fragility has become a mounting concern to the international community in the last decades This edited volume consists of a compilation of articles that evaluates how countries may recover and return to a path of stable and democratic development In its 17 chapters the contributors analyze the difficult transformation processes of four countries Afghanistan Georgia Kosovo and Moldova The authors tackle theoretical approaches to state reform as well as country specific issues like the role of external actors security sector reform and anti corruption strategies      **The Demography of Armed Conflict** Helge Brunborg,Ewa Tabeau,Henrik Urdal,2006-12-13 War and conflict whether internal or international remains a pervasive phenomenon affecting most regions of the world and particularly low income countries Demographic consequences of war and violence especially deaths and forced migration are amongst the gravest costs of war and receive much attention in mass media although it is often difficult to quantify such effects Furthermore demographic factors such as population pressure on natural renewable resources migration differential population dynamics by ethnic or religious group or the number of young persons in a population have been suggested as potential causes of conflict Despite the obvious importance of both demographic causes and consequences of armed conflict research on the demographic aspects of conflict is scarce This book brings together researchers from very different traditions to bridge gaps in the field and to provide new insights into the demographic causes and consequences of armed conflict The diversity of the authors coming from demography statistics political science sociology anthropology history geography economics and law gives the reader a cross cut of recent research in demography and armed conflict The themes are equally diverse Studies of demographic causes of conflict address issues of migration ethnicity population growth and youth bulges Studies focusing on the consequences of conflict include some broad assessments of mortality from armed conflict the estimation of casualties for prosecution of war crimes as well as detailed case studies of conflicts in Bosnia and Herzegovina Cambodia Kenya Mali Rwanda Sudan and Uganda
