Special Education in Today's Diverse Classrooms Shantel M. Farnan, Ruby L. Owiny, 2025-09-02 Special Education in Today's Diverse Classrooms Meeting the Needs of Students with Exceptionalities is an introductory level textbook designed for all pre-service teachers to learn about meeting the needs of students with exceptionalities in inclusive environments. Along with descriptions of each IDEA disability category, the book presents high leverage practices (HLPs) and evidence-based strategies that are practical and applicable to any instructional environment. Through the lens of HLPs, this text emphasizes universal design for learning (UDL), tiered supports, culturally inclusive pedagogies and practices (CIPP), and evidence-based practices (EBPs). This textbook bridges the gap between research knowledge about disabilities and a practical approach to educating students, offering a comprehensive framework for educators navigating the diverse needs of students with exceptionalities. By placing a strong emphasis on CIPP and EBPs as they relate to HLPs, it equips readers with tools to create meaningful and equitable learning experiences. The unique structure, enriched by authentic vignettes and aligned with professional standards, ensures the practical application of frameworks such as UDL and multi-tiered systems of support. Additionally, the book underscores the importance of family engagement, making it a vital resource for fostering collaboration in education. The content aligns with the Council for Exceptional Children (CEC) standards, ensuring its relevance and utility for professional educator preparation. Through its innovative approach, this text inspires educators to not only meet students' needs but also celebrate their individuality, preparing them to succeed in dynamic inclusive school and classroom environments.

Key Features: Real-life vignettes from individuals with disabilities, their families, and educators offer authentic perspectives that go beyond case studies. Links to resources to increase exposure and knowledge about specific topics designed to enrich understanding and application of inclusive practices. Includes coverage of concepts such as trauma, neurodiversity, social and emotional learning, assistive technology, and new instructional technologies. With inclusive language and culturally inclusive pedagogies and practices, the book prepares future educators to foster trust and promote equity in their classrooms. Focus on application to the classroom through questions and activities at the end of each chapter. Color graphics, visual frameworks (e.g., UDL models and instructional charts) enhance comprehension and engagement. Please note: ancillary materials such as quizzes and eFlashcards are not available as in the print version of this work.

Fostering Habits of Mind in Today's Students Jennifer Fletcher, Adela Najarro, Hetty Yelland, 2023-07-03 Co-published with and for Students need more than just academic skills for success in college and career, and the lack of an explicit instructional focus on the soft skills critical to postsecondary success poses a challenge for many students who enter college, especially the underprepared. Based upon a multi-campus, cross-disciplinary collaboration, this book presents the resulting set of habits of mind-based strategies that demonstrably help not only low-income, ESL, and first-generation college students overcome obstacles on the path to degree completion; these strategies equally benefit all students. They promote life-long integrative learning and foster

intellectual qualities such as curiosity openness flexibility engagement and persistence that are the key to developing internalized and transferrable competencies that are seldom given direct attention in college classrooms This contributed volume written with full time and adjunct faculty in mind provides the rationale for this pedagogical approach and presents the sequential instructional cycle that begins by identifying students assets and progressively focusing on specific habits to develop their capacity to transfer their learning to new tasks and situations Faculty from both two year and four year colleges provide examples of how they implement these practices in English math and General Education courses and demonstrate the applicability of these practices across course types and disciplines Chapters address key factors of college success including The link between habits of mind and student retention and achievement Using an assets based approach to teaching and learning Supporting and engaging students Creating inclusive learning communities Building confidence and self efficacy Promoting transfer of learning Teacher networks and cross disciplinary collaboration By foregrounding habits of mind as an instructional lens this book makes a unique contribution to teaching in developmental and general education settings
