Mastering the Travel Intermediaries Ben Vinod,2024-06-25 This book chronicles the role of travel intermediaries global distribution systems GDS travel management companies TMC and online travel agencies OTA in the distribution of travel products The book covers the historical development of these intermediaries and explores their current state and future prospects Almost six decades after the introduction of computerized reservations systems and four decades after the introduction of Global Distribution Systems that allowed travel agents to make automated airline bookings the distribution of air products is amid a major transition A fundamental change is pricing power which shifts from the GDSs to the airlines for the indirect channel These changes are driven by advancements in technology market economics and airline cost controls leading to the emergence of new revenue models that will permanently alter the landscape of air distribution As a result travel intermediaries are experiencing the effects of these turbulent times and must adopt innovative approaches and initiatives to adapt and transform their business models rather than maintaining the status quo In addition to the ongoing transformation over the next decade the advancements in emerging technologies like blockchain and decentralized digital identity will further revolutionize the distribution landscape across all sectors of the travel industry

Bank Performance Measures Paweł Niedziółka,2025-12-16 The reforms introduced in the aftermath of the Global Financial Crisis of 2007 2009 have had the desired effect in that banks are better capitalised banks have higher liquidity buffers and the share of non performing loans is low Macroprudential policies have been implemented banking sector supervision has been overhauled and the new resolution framework gives hope that bank failures will not escalate systemic risk This book argues however that we still need to remain vigilant The world has not yet recovered from the pandemic and we are now faced with new challenges particularly climate technological and geopolitical risks affecting international trade the availability and prices of energy carriers and the cost of capital In this context it asks what measures should be used to assess a commercial bank whether as a potential shareholder client member of the bank s bodies or a supervisory institution It provides a broad overview of bank performance measures used in contemporary investment management and supervisory practice in the most important areas of a bank s activity as well as metrics that synthetically

reflect the bank's standing. The book evaluates a commercial bank in the context of the climate crisis and risk the growing importance of FinTech, cybersecurity and AI technology as well as the challenges related to the escalation of geopolitical risk. It also includes an assessment of the standing of global systemically important banks G-SIBs and banking sectors in Europe indicating potential directions for changes to the tools used so far. It will find a broad audience among students, academics and researchers in finance and banking as well as policymakers and regulators.
