Forrest Mims' Science Experiments Forrest M. Mims III, 2016-08-03 Forrest M. Mims is a revered contributor to Make magazine where his popular columns about science related topics and projects for Makers are evergreen treasures. Collected together here for the first time these columns range from such simple projects as building an LED tracker for hand launched night rockets to such challenging builds as transforming strings of data into unique musical compositions. A variety of photography and imaging projects are featured including an ultra sensitive twilight photometer that measures the elevation of layers of dust, smoke and smog from around 3 000 feet to the top of the stratosphere at 31 miles. Most of the projects can be done with a collection of simple electronic components such as LEDs, transistors, resistors and batteries. To inspire and motivate readers the book also includes profiles of such famous Makers as President Thomas Jefferson and Microsoft co-founder Paul Allen.

60 Super Simple More Science Experiments Querida Lee Pearce, 1999 Designed to bring out the scientist in every middle school student this book features a variety of fun and easy experiments with clear step by step instructions and helpful illustrations.

Fun & Easy Science Projects: Grade 4 Experiland, 2010-09-23 Science certainly does not need to be complicated formulas, heavy text books and geeky guys in white lab coats with thick glasses. Science can be really simple and is actually only about understanding the world you live in. Science experiments are an awesome part of science that allows you to engage in cool and exciting hands on learning experiences that you are sure to enjoy and remember. By working through the science projects in this book you will learn about science in the best possible way getting your hands dirty from Chemistry and Electricity to Life Sciences and Physics there are even experiments on earth science, astronomy and geology all designed for young students in grade 4. With this book you are sure to find a project that interests you. When you are interested in a certain science topic you will have more fun and learn more too. Designed with safety in mind most of the items you will need for the experiments such as jars, aluminium foil, scissors and sticky tape you can find around your home. Others such as magnets, lenses or a compass you will be able to buy quite cheaply at a hobby shop or hardware store.
