*Consciousness - The Power of Vibration and Frequency* N.J. Powell,2024-02-15 Embark on a captivating journey into the depths of consciousness with *Consciousness The Power of Vibration and Frequency* Explore the profound interplay between consciousness and subtle energies from ancient traditional wisdom to modern science Uncover how vibration and frequency transform the human experience unlocking new dimensions of awareness and spiritual growth Delve into their impact on the energy body and consciousness from environmental forces to investigating the metaphysical realm where ancient beliefs intersect with modern practices Explore the mysteries of spiritual and dream states guided by illuminating research and practical wisdom This comprehensive study offers valuable insights and actionable guidance for personal evolution while providing clarity and simplicity for all readers      [A new paradigm of reality?](#) Gonzalo Rodríguez-Fraile,2015-11-04 The vision that culture has historically offered about reality has failed to help humans to live fully or to achieve their potential A knowledge revolution has been taking place in recent years that once it is understood can completely transform human beings offering new solutions to personal and collective problems because their root causes have been identified at last What we now know means that we can understand spiritual truths and their multiple dimensions without abandoning rationality This new vision is strong enough to put an end to human suffering and boost inner peace which is for what every being human yearns New science sees an intelligent design in the whole Universe Quantum physics has revolutionized our

knowledge of reality All scientists are now aware of the quantum enigmas but not everyone agrees on how to interpret them This book offers an interpretation that might explain them and one that is based on the idea of science within consciousness As you read the book it will become evident that this interpretation most closely resembles the vision of reality that both the perennial wisdom of Humanity and the teachings of the great spiritual masters have offered us throughout history The first part of the book outlines briefly what some of the leading thinkers on science and philosophy have to say about reality and how this new vision of the world is converging with what the perennial wisdom of Humanity has been saying throughout our history The second part seeks to explain what can happen to us when we are exposed to this new knowledge and how all of us can change inside ourselves in the light of this information This book aims to unite not divide helping Humanity to raise its level of consciousness allowing us to live a higher quality life in accordance with our spiritual dimension *Is Your Fork in Tune?* Hayley Weatherburn, 2012-05-09 Ever wondered how twins can sense each other even when they are on the other side of the world Or thought about why you suddenly think of someone you haven't seen for ages and then they call you on the phone how does that happen Have you ever experienced or heard of animals predicting earthquakes or even sniffing out cancers what makes them do this Religion and prayer seem to produce some intriguing miracles can science explain this And then there is paranormal activity and superstitions are they real and if so what is going on that we don't understand These and many more questions plagued Hayley Weatherburn to read research and learn what was going on behind the scenes Being of a scientific mind she delved into the realm of quantum physics and discovered an answer Explaining it very simply with a few amusing and personal anecdotes she goes through different aspects of life as we know it and provides an interesting view on the way the world works and how to apply this new paradigm to your own everyday life Whether you are a scientist an atheist religious or you're not even sure this easy read takes you on a journey that may concrete your personal beliefs and help you to discover who you are and what you believe in What is Divine Energy Vipin Gupta, 2021-05-09 What is divine energy is an incredibly profound but straightforward exposition of the science of everything In this landmark work Dr Vipin Gupta begins with the investigation of the quintessential questions for understanding divine energy and managing life joyfully Who am I What is the soul What is the spirit Who is God What is religion What is the purpose of our life What happens after death Do we become a star as children's books tell us What is dark matter What is black hole What is the center of the universe Is there an Absolute or anything beyond that Are we truly incapable of creating or destroying energy Dr Gupta traces the journey of a cell its origins in an atom its transformation into energy and how energy norms the potential of divinity within each person He clarifies ninety six paths of self development for realizing this potential He shows that contrary to the present understanding a cell's development involves thirty three phases The work is rooted in the state of the art science of microbiological macrophysical genetics India's ancient cultural metaphysics and a unique energy quantification of the dynamic benefits and costs of everything It is a part of a series of twelve books that traverses through an

understanding of the present reality that can be applied to one's personal life and for societal impact. It offers an unusual integration which the beta readers report as never seen anything like this before and overwhelming because of its originality, technicality and comprehensiveness. Dr Vipin Gupta has a Ph.D. in managerial science and applied economics from the Wharton School of the University of Pennsylvania. He is a gold medalist from the Post graduate Program of the Indian Institute of Management Ahmedabad, India. He is a Professor of sensible management and appropriate science at the Jack H. Brown College of Business and Public Administration, California State University, San Bernardino, USA.

**The Divine Light** Sorin Cerin, 2010-11-10. Everything has started by some few dreams which not just that I would never forget my entire life but more than that I don't think it was just dreams in the right sense of the notion. I was conscious during the rest that I was sleeping. What it could be said that I was dreaming is nothing else than a real experience in a space from where I can come back anytime in the world where I am sleeping. I was at the beginning somewhere on the fringe of an unknown town in the night. While I have looked at the multicolored lights from any distance I started to become easier so easy that I felt in a moment I could fly.
