Library, Edith Holtom, 1974 Asian American Librarians and Library Services Janet Hyunju Clarke, Raymond Pun, Monnee Tong, 2017-12-08 What are the library services and resources that Asian Pacific Americans need What does it mean to be an Asian Pacific American librarian in the 21st century In Asian American Librarians and Library Services Activism Collaborations and Strategies library professionals and scholars share reflections best practices and strategies and convey the critical need for diversity in the LIS field library programming and resources to better reflect the rich and varied experiences and information needs of Asian Americans in the US and beyond The contributors show that they care deeply about diversity that they acknowledge that it is painfully lacking in so many aspects of libraries and librarianship and that libraries and the LIS profession must systematically integrate diversity and inclusion into their strategic priorities and practices indeed in their very mission such that the rich diversity of experiences and histories of Asian Americans in library and archival collections services and programming are not only validated and recognized but also valued and celebrated as vital components of the shared American experience The volume recognizes and honors the creative and intentional work librarians do for their constituent Asian American communities in promoting resources services and outreach Code Breakers and Spies of the Vietnam War Andrew Coddington, 2018-07-15 Set against the backdrop of the Cold War the conflict in Vietnam was much more than a battle between Vietnamese and American forces Although the fighting may have taken place in monsoon swept cities and booby trapped jungles the Vietnam War was fought on a much larger scale Spies were active on all fronts including within the United States itself Readers will explore how technology and tactics not only shaped the Vietnam War but changed the ethics of American surveillance from then until the present day Vietnam Over the Long Twentieth Century Liam C. Kelley, Gerard Sasges, 2024-07-22 This open access book provides fascinating insights into the incredible changes that Vietnam underwent in the long twentieth century as it transformed from an early modern kingdom to a European colony to a divided land with opposing ideologies and to a unified country in a globalized world At each stage in this long century of changes there were Vietnamese who sought to mold their society into some vision of modernity The book looks at multiple rather than one form of modernity and links those forms with the different political moments that Vietnam experienced in tandem with the outside interlocutors that were maintained during those periods As such this book provides a holistic view of the many forms of modernity and their global links that can be found in Vietnam over the course of the long twentieth century These multiple modernities are documented in this book and the authors do so by bringing together the strengths of traditional language based area studies scholarship with the insights that an awareness of trans national and global perspectives provides Relevant to historians and researchers in the broader arena of Southeast Asian studies with a particular interest in Vietnam its journey from past to present this book is a must read engagement with a country that has

undergone and continues to experience rapid transformation The Vietnamese Collection of the ANU Library Australian National University. Library,1983 Communist Vietnamese Publications ,1976 **The Vietnam Forum** ,1994
