Gershon, 2025-01-27 The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management information technology product design planning and digital lifestyle This handbook is about the power of good ideas It s about those business enterprises government planners educators and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in Keeping pace with fast paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues A major premise of this book is that given the complex and ever changing state of media technology we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business education and the general public Forecasting the future as any weatherperson or stock broker can tell you is a risky business But in this book we use the phrase the creative next step as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward *Illegal Online File Sharing, Decision-Analysis, and the Pricing of Digital Goods* Michael I. C. Nwogugu, 2016-11-03 Illegal online file sharing costs companies tens of billions of dollars of lost revenues around the world annually and results in lost productivity various psychological issues and significant reduction of incentives to create and innovate Legislative technical and enforcement efforts have failed This book presents psychological theories about why people illegally share files online analyzes and characterizes optimal sanctions for illegal online file sharing introduces new models for pricing of network access and digital content to help reduce illegal online file sharing introduces new content control and P2P systems and explains why game theory does not work in pricing of network access **Behavior Dynamics in Media-Sharing Social Networks** H. Vicky Zhao, W. Sabrina Lin, K. J. Ray Liu, 2011-04-14 In large scale media sharing social networks where millions of users create share link and reuse media content there are clear challenges in protecting

content security and intellectual property and in designing scalable and reliable networks capable of handling high levels of traffic This comprehensive resource demonstrates how game theory can be used to model user dynamics and optimize design of media sharing networks It reviews the fundamental methodologies used to model and analyze human behavior using examples from real world multimedia social networks With a thorough investigation of the impact of human factors on multimedia system design this accessible book shows how an understanding of human behavior can be used to improve system performance Bringing together mathematical tools and engineering concepts with ideas from sociology and human behavior analysis this one stop guide will enable researchers to explore this emerging field further and ultimately design media sharing systems with more efficient secure and personalized services
