

Document Title: Description: general	Function Group: 000	Information Type: Service-Information	Date: 2018/4/19
<b>Profile:</b> EC 1.8D- Volvo			

#### Description, general

Chapter 10: Summary

Model	Production year	Serial number start	Serial number stop
EC 180i Volvo			

The EC150, EC180, EC200 are compact excavators with track chain drive.

The engine is a vertical, water-cooled, in-line, three cylinder, four-stroke diesel engine, type D0.8A, with indirect fuel injection system. The engine complies with the legal requirements to emissions standard Tier 0 final.

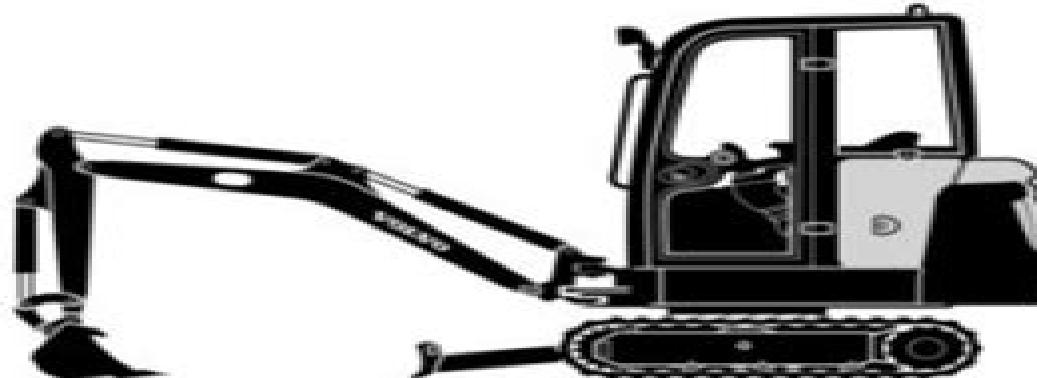

The drive movement is provided by two tracks, each of which is driven by an axial piston motor. The track motor of the EC150i has one travel step, and the drive motor of the EC180i, EC200i has two travel steps.

The hydraulic system is a hydraulic load-sensing system which guarantees complete independent control of movements.

The superstructure swivel movement is guaranteed by a Hydraulic swivel system which is connected directly (i.e. without reduction gear) drives a ball-mounted bearing ring gear with internal teeth, which is connected to the superstructure.

The undercarriage of the ECR150i consists of a single section. The swing ring gear has remote lubrication. The track unit consisting of a track frame, track, track sprocket, track roller, track tensioning package, drive wheel, side sills, lower running rollers and idler sills is shown.

The EC200D consists of a welded H-shaped centre section. To increase the stability, the side wings are fully width-adjustable. The dozer blade has blade extensions with fixing brackets in order to allow working results even with the chassis extended. The swing ring gear has remote lubrication. The guide wheel package, drive wheel, slide rails, lower running rollers and dozer blade is also part of the undercarriage.
