Of Love 2nd Edition Bubba Nicholson,2011-02-05 The second edition 2011 of Nicholson s original text OF LOVE Kisses Pass Epigenetic Pheromones in the Pathogenesis of Sociopathy mental illness and disease The Cure for Crime The Cure for Drug Addiction     Physics of Social Interactions Orit Peleg,Saad Bhamla,Alex Jordan,Tim Landgraf,Natasha Mhatre,Laura Ann Miller,2022-11-08     Your Survival Instinct Is Killing You Marc Schoen,2013-03-21 Thanks to technology we live in a world that s much more comfortable than ever before But here s the paradox our tolerance for discomfort is at an all time low And as we wrestle with a sinking discomfort threshold we increasingly find ourselves at the mercy of our primitive instincts and reactions that can perpetuate disease dysfunction and impair performance and decision making Designed to keep us out of danger our limbic brain s Survival Instinct controls what we intuitively do to avert injury or death such as running out of a burning building Rarely are we required to recruit this instinct today because seldom do we find ourselves in situations that are truly life threatening However this part of our brain is programmed to naturally and automatically react to even the most benign forms of discomfort and stress as serious threats to our survival In this seminal book we learn how the Survival Instinct is the culprit that triggers a person to overeat prevents the insomniac from sleeping causes the executive to unravel under pressure leads travelers to avoid planes or freeways inflames pain and due to past heartache closes down an individual to love In all of these cases their overly sensitive Survival Instinct is being called into action at the slightest hint of discomfort In short their Survival Instinct is stuck in the ON position with grave consequences Your Survival Is Killing You can transform the way you live Provocative eye opening and surprisingly practical with its gallery of strategies and ideas this book will show you how to build up your instinctual muscles for successfully managing discomfort while taming your overly reactive Survival Instinct You will learn that the management of discomfort is the single most important skill for the twenty first century This book is at its heart a modern guide to survival     **Interval Timing and Time-Based Decision Making** Warren H. Meck,Valérie Doyère,Agnes Gruart,2012-05-01 The perception of time is crucial for everyday activities from the sleep wake cycle to playing and appreciating music verbal communication to the determination of the value of a particular behavior With regard to the last point making decisions is heavily influenced by the duration of the various options the duration of the expected delays for receiving the options and the time constraints for making a choice Recent advances suggest that the brain represents time in a distributed manner and reflects time as a result of temporal changes in network states and or by the coincidence detection of the phase of different neural populations Moreover intrinsic oscillatory properties of neural circuits could determine timed motor responses This Research Topic partly an emergence of a Satellite EBBS meeting sponsored by the COST Action TIMELY will discuss how time in the physical world is reconstructed distorted and modified in brain networks by emotion learning and neuropathology This Research Topic on Timing contains up to date reviews regarding the relationship between time and decision making with respect to the underlying psychological and
