Things Japanese Everyday Objects Of Exceptional Beauty And Significance:

Things Japanese Nicholas Bornoff, 2014-03-25 Traditional Japanese design imbues objects with a sense of history and artistry that easily reaches across cultural boundaries. In *Things Japanese Everyday Objects of Extraordinary Beauty and Significance* author Nicholas Bornoff and photographer Michael Freeman examine over 60 traditional objects that are uniquely Japanese, deftly illustrating their beauty and significance. Beautifully crafted samurai swords, elegant wooden tansu chests, elaborate tea ceremony implements, exquisitely carved netsuke toggles, fabulous silk and gold embroidered kimonos. Each item is described in loving detail alongside lovely full color photographs that highlight the great artistry and craftsmanship in everyday items used by real people in traditional Japan. *Things Japanese* is the perfect book for Japanese antique collectors or anyone interested in Japanese art and the culture and history of Japan.

Occult Hunting and Supernatural Play in Japan Laura Miller, 2024-08-31

In Japan today women are the primary drivers of religious re-enchantment and they are exerting pressure on shrines, temples, and media industries to accommodate their interests and aesthetic tastes. Employing a semantically broad meaning of 'occult' to include the mysterious or supernatural, Laura Miller examines how it manifests to offer avenues of self-exploration and spiritual capital that fundamentally appeal to women. Female seekers have had a major impact on the fashioning and marketing of spiritual sites, texts, and objects, often through encoding the 'kawaii' or 'cute' aesthetic. Miller makes the case that the gendered nature of occult hunting has been neglected in research and that greater attention to gendered perspectives reveals significant facets of sociality and recreation. Written from an interdisciplinary cultural studies perspective, *Occult Hunting and Supernatural Play in Japan* interlaces history, art, literature, religion, media studies, and anthropology to explore ubiquitous yet understudied activities such as having one's fortune told, visiting powerspots, locations thought to hold exceptional supernatural energy, and playing with new types of tarot decks. Book chapters also focus on material religion, including objects like good luck amulets and votive plaques, Taoist paper talismans, pilgrim stamps, and ancient curved beads called magatama. Tracing their histories and transformations, Miller insists that these forms of visual and material religion, and their related activities, are neither trivial nor simply commercial gambits. Rather, they provide insights into the realms of creative exploration, pleasure, and spiritual development in the lives of girls and young women.

Things Japanese Basil Hall Chamberlain, 1905 **The Japan Daily Mail**, 1891 **Objects of Discourse** John R. Wallace, 2005

Wallace analyzes the four main 10th and 11th century Heian memoirs by women for their individual characteristics and what they suggest of Heian literature more broadly. He treats the memoirists not as passive objects of men's romantic play but rather as individuals who strategically confront their difficult life situations in part by writing about their experiences. Wallace further finds in the memoirs a rich resource for understanding rhetorical and structural features of Japan's high classical period literary prose. After taking up historical issues such as the newly developed vernacular scripts and pre-texts of the memoirs, Wallace probes *Gossamer Years*, *Lady Izumi's Story*, and *Lady Murasaki*.
