John Feffer, 2021-09-20 John Feffer is our 21st century Jack London Mike Davis In a post Trump world the right is still very much in power Significantly more than half the world's population currently lives under some form of right wing populist or authoritarian rule Today's autocrats are at first glance a diverse band of brothers But religious economic social and environmental differences aside there is one thing that unites them their hatred of the liberal globalised world This unity is their strength and through control of government civil society and the digital world they are working together across borders

to stamp out the left In comparison the liberal left commands only a few disconnected islands Iceland Mexico New Zealand South Korea Spain and Uruguay So far they have been on the defensive campaigning on local issues in their own countries This narrow focus underestimates the resilience and global connectivity of the right In this book John Feffer speaks to the world s leading activists to show how international leftist campaigns must come together if they are to combat the rising tide of the right A global Green New Deal progressive trans European movements grassroots campaigning on international issues with new and improved language and storytelling are all needed if we are to pull the planet back from the edge of catastrophe This book is both a warning and an inspiration to activists terrified by the strengthening wall of far right power
