The Train Now Departing:

The Train Now Departing Martha Grimes, 2000 Two thematically linked novellas focus on a single woman living a quiet orderly life that is gradually altered by meals shared with male acquaintances The Train Now Departing Martha Grimes, 1998 These two linked novellas *The Train now Departing* and *When The Mousetrap Closes* both explore emotional isolation and identity within human relationships *The Train Now Departing* , 1988 **The Train Now Departing** , 1988-01-01 **The Train Now Departing** Martha Grimes, 1999 Two beautifully accomplished and thematically linked novellas are deceptively profound in their exploration of emotional isolation and identity within human relationships *The Train Now Departing* , When the steam locomotive was abandoned in the 60s a piece of history was shut down but nothing could dampen the fire of the steam enthusiast About a thousand trains survived the scrap heap some are in museums other are back on the lines in pristine condition a breath of the past and a noisy reminder that the spirit of the steam age lives on This traces the history of steam trains and the work of enthusiasts throughout the UK *The Mysterious Storm (Book 1 Albie Monjoran Series)* , **May on Motors** James May, 2012-04-30 Best known as the third presenter in the unholy trinity that is Clarkson Hammond and May on Top Gear James May has lived breathed and dreamt about cars his entire life There is something about cars that stirs up intense feelings in people how it makes them look to the outside world how it makes them feel about themselves how it looks to their girlfriends or their mates or their neighbours These feelings are humorously described in May on Motors as James takes us on the road and looks at the cars that have shaped him his world and the ordinary people of Britain In May on Motors James has brought together his most controversial and amusing pieces to make a brilliant collection that will amuse and inspire all car enthusiasts *A Wrong Turn at the Office of Unmade Lists* Jane Rawson, 2013-06-01 It is 1997 in San Francisco and Simon and Sarah have been sent on a quest to see America they must stand at least once in every 25 foot square of the country Decades later in an Australian city that has fallen on hard times Caddy is camped by the Maribyrnong River living on small change from odd jobs ersatz vodka and memories She s sick of being hot dirty broke and alone Caddy s future changes shape when her friend Ray stumbles across some well worn maps including one of San Francisco and their lives connect with those of teenagers Simon and Sarah in ways that are unexpected and profound A meditation on happiness where and in what place and with who we can find our centre a perceptive vision of where our world is headed and a testament to the power of memory and imagination this is the best of novels both highly original and eminently readable Guinness and Chips : Sharon Jane Lansbury, 2009 **Zenon Vantini** Pamela Sambrook, 2021-05-27 In this remarkable study Pamela Sambrook rescues from obscurity the contribution of a former member of Napoleon s Imperial Guard to the development of specialist hotels and catering in the formative years of the railway network in England and France In doing so she interrogates what lies behind some of Zenon Vantini s very real achievements legacies and disasters She asks how far he was driven by his familial background in Elba and his involvement

in the political turmoil of early nineteenth century France and to what extent his whole life was known to those around him Vantini s extraordinary life encapsulates the change between two very different worlds the old imperial past and the new age of entrepreneurial risk taking Never shaking off his old political loyalties he believed resolutely that the mobility afforded by railway travel would change Europe fundamentally In the long view he was a component part in the very early years of an industry which revolutionised England and Europe more than did even his hero Napoleon

Adam, And, The Train Heinrich Böll,1970 Adam Hitler s once great army is broken and demoralized and the end of the war is imminent yet Jews are still being evacuated and soldiers are still being rounded up like criminals and sent to the front B ll paints war as acts of imbecility senseless accidents and bizarre coincidences related only through death

Platform Souls Nicholas Whittaker,2015-08-06 Nicholas Whittaker s much loved classic recollects the long sunny days of his childhood when notepad in hand jam sandwiches in the duffel bag he happily spent his time jotting down train numbers during the Indian summer of steam and the heyday of diesel Whittaker returns to his roots in this updated edition casting a sceptical eye over recent developments catching up with old acquaintances and considering the toll that half a century of ridicule and a couple of decades of privatisation have wrought upon his beloved pastime As Andrew Martin notes in his Foreword this is one of the best books ever written about rail enthusiasm Equally it is a poetically written memoir of growing up in a more innocent age a hymn to British eccentricity and to the virtues of observing the world around you Spotters of trains planes buses or birds are a last redoubt for something rapidly vanishing from our lives looking outward seeing observing People notice things less and less these days while watching things more and more Praise for the first edition An elegy for the steam trains already vanishing when Whittaker s hobby began in 1964 for the short lived diesel age which followed for an era of near innocence Times Literary Supplement Whittaker writes with humour and considerable evocative power For anyone who will admit to having a childhood brush with this now derided hobby Platform Souls brings it all rushing back Independent Destined to become the Fever Pitch of the sidings and embankments Publishing News

Film & Video Finder ,1997 [The Forgotten Past](#) Andrew Vinken,2019-05-14 We ve all been taught about kings and queens great battles and the rise and fall of empires The term historians have coined for this is history from above But what about the ordinary folk What about almost everybody who ever existed What about the places where no earth shattering events have ever occurred This book is comprised of fascinating stories and anecdotes throughout history such as how a Bristol merchant may have played a part in giving America its name why a First World War naval battle was fought in a jungle and how Sir David Attenborough helped to solve a Victorian murder mystery

My Lady of the Snows Margaret Adeline Brown,1908 **The Odd Women** George Gissing,1915 [Supreme Court of The State of New York:](#), *The Pullman News* ,1922 *The Railway Age and Northwestern Railroader* ,1897
