**Kill Boxes: Facing the Legacy of US-Sponsored Torture, Indefinite Detention, and Drone Warfare** Richard Falk, Elisabeth Weber, 2017 Kill Boxes addresses the legacy of US sponsored torture indefinite detention and drone warfare by deciphering the shocks of recognition that humanistic and artistic responses to violence bring to consciousness if readers and viewers have eyes to face them Beginning with an analysis of the ways in which the hooded man from Abu Ghraib became iconic subsequent chapters take up less culturally visible scenes of massive violations of human rights to bring us face to face with these shocks and the forms of recognition that they enable and disavow We are addressed in the photo of the hooded man all the more so as he was brutally prevented in our name from returning the camera s and thus our gaze We are addressed in the screams that turn a person tortured in our name into howling flesh We are addressed in poems written in the Guant namo Prison camp however much American authorities try to censor them in our name We are addressed by the victims of the US drone wars however little American citizens may have heard the names of the places obliterated by the bombs for which their taxes pay And we know that we are addressed in spite of a number of strategies of brutal refusal of heeding those calls Providing intensive readings of philosophical texts by Jean Am ry Jacques Derrida and Christian Thomasius with poetic texts by Franz Kafka Paul Muldoon and the poet detainees of Guant namo Bay Prison Camp and with artistic creations by Sallah Edine Sallat the American artist collective Forkscrew and an international artist collective from Pakistan France and the US Kill Boxes demonstrates the complexity of humanistic responses to crimes committed in the name of national security The conscious or unconscious knowledge that we are addressed by the victims of these crimes is a critical factor in discussions on torture on indefinite detention without trial as practiced in Guant namo and in debates on the strategies to circumvent the latter altogether as practiced in drone warfare and its extrajudicial assassination program The volume concludes with an Afterword by Richard Falk

*The Art of Dining in Medieval Byzantium* Lara Frentrop, 2023-11-16  
Thousands of intact ceramic bowls and plates as well as fragments made in the medieval Byzantine empire survive to this day Decorated with figural and non figural imagery applied in a variety of techniques and adorned with colourful paints and glazes the vessels can tell us much about those who owned them and those who looked at them In addition to innumerable ceramic vessels a handful of precious metal bowls and plates survive from the period Together these objects make up the art of dining in medieval Byzantium This art of dining was effervescent at turns irreverent and deadly serious visually stunning and fun It is suggestive of ways in which those viewing the objects used a quotidian and biologically necessary fact that of eating to reflect on their lives and deaths their aspirations and their realities This book examines the ceramic and metal vessels in terms of the information offered on the foods eaten the foods desired and their status the spectacle of the banquet the relationship between word and image in medieval Byzantium the dangers of taste the emergence of new moral and social ideals and the use of dining as a tool in constructing and enforcing hierarchy This book is of appeal to scholarly and non

scholarly audiences interested in the art and material culture of the medieval period and in the social history of food and eating

**The Transgression Box** Roger Colby, 2009-11 The Transgression Box is a uniquely allegorical science fiction novel that examines the problems of American Christianity much as Pilgrims Progress did for its generation Set in a fictional galaxy it is the story of Dornin the village liar who brings an object into the village that causes through a series of events half of his people to fall into an unending slumber Finally feeling guilty for something he has done Dornin sets off to take the object a small metal box to throw it off the edge of the world Little does Dornin realize that he is about to send himself headlong into a perilous adventure that spans the galaxy He steals the box away from his village elders which he discovers are really monstrous dopplegangers and begins his quest only to discover that try as he might he cannot destroy the box no matter what he tries To his horror the box is alive and it speaks terrible evil to him He is the only one who can hear it and it leads him into terrible evil On his journey he is sold into slavery becomes part of an underground rebellion is rescued by malevolent benefactors is nearly executed for his growing faith barely escapes from the maker of the boxes and ultimately maroons himself in space as a final act of that faith He is surprised to discover that the box is finally destroyed by the Maker of the Universe who is embodied in his son Kebes Ariei Kebes Ariei arms him with tools and weapons he can use to defeat the vile elders and he returns to his planet to liberate his people Dornin's tale is one in which all of us can find commonality Follow Dornin on his perilous journey and watch as his faith grows through adversity and discovery
