Think It Through Early Math Counting Patterning Matching Two Book Set:

Learning and Teaching Early Math Douglas H. Clements, Julie Sarama, 2020-12-29 The third edition of this significant and groundbreaking book summarizes current research into how young children learn mathematics and how best to develop foundational knowledge to realize more effective teaching. Using straightforward practical language early math experts Douglas Clements and Julie Sarama show how learning trajectories help teachers understand children's level of mathematical understanding and lead to better teaching. By focusing on the inherent delight and curiosity behind young children's mathematical reasoning learning trajectories ultimately make teaching more joyous helping teachers understand the varying levels of knowledge exhibited by individual students it allows them to better meet the learning needs of all children. This thoroughly revised and contemporary third edition of Learning and Teaching Early Math remains the definitive research based resource to help teachers understand the learning trajectories of early mathematics and become confident credible professionals. The new edition draws on numerous new research studies offers expanded international examples and includes updated illustrations throughout. This new edition is closely linked with Learning and Teaching with Learning Trajectories LT 2 an open access web based tool for early childhood educators to learn about how children think and learn about mathematics. Head to LearningTrajectories.org for ongoing updates interactive games and practical tools that support classroom learning.

Nurturing Your Child's Math and Literacy in Pre-K-Fifth Grade Mary Mueller, Alisa Hindin, 2016-11-23 With recent changes in the curriculum and standards in language arts and mathematics parents often are challenged to find ways to help their children be successful in their learning endeavors. While parents want to be involved in their children's education they are often unsure of their role in their children's learning and the best ways to help their children to succeed academically. Moreover with the changes in how math and literacy are being taught parents often struggle with helping even first grade children with their homework. In this book we set out to alleviate this struggle by offering parents a resource they can use to navigate their child's education communicate with teachers and support their children in learning mathematics and literacy. After providing an overview of the current educational climate and tips for communication with teachers we share strategies and suggestions parents can use to assist their children in language arts and mathematics. We provide detailed descriptions of activities games books and conversations that connect with what children will be learning at each grade level.
